Throughout scripture we are reminded that God created the world for his purposes and we have a responsibility to take care of it.

“And what does the LORD require of you? To act justly and to love mercy and to walk humbly with your God.” (Micah 6:8)
The problems produced by climate change are undeniable: impoverished communities are suffering from droughts, soil erosion, and an inability to produce enough food. We cannot ignore climate change.

**HUNGER:**
Last year climate shocks (droughts and floods) plunged 29 million people in 26 different countries into hunger.

**MIGRATION:**
On average 22 million people are displaced annually because of climate-related disasters.

**CONFLICT:**
The effects of climate change fuels conflict. For instance, droughts often increase tension between communities that rely on farming.

The problems produced by climate change are undeniable: impoverished communities are suffering from droughts, soil erosion, and an inability to produce enough food. We cannot ignore climate change.

**WE NEED A PASSIONATE PRAYER MOVEMENT FOR THIS ISSUE. IT IS SO BIG AND COMPLEX WE MUST RELY ON GOD’S POWER TO SEE JUSTICE DONE.**

JOIN US IN PRAYING

...For the church’s light to shine brightly as we speak out on the impact of climate change on people in poverty.

...That communities afflicted by climate shocks will receive the food and shelter they need.

...For those whose homes and livelihoods were destroyed, that they will get adequate support to help them rebuild their lives, and get healing from the trauma they experienced.
...That world leaders make decisions that benefit people in poverty, and for governments to respond and take climate change seriously.

...For our partners who work tirelessly to reach those most in need will be able to meet people’s basic needs. Also, ask God to give them strength and hope as they continue in their work.

...For affected nations in the aftermath of climate shocks, that they would be able to rebuild infrastructure and restart their lives again.

...That world leaders make decisions that benefit people in poverty, and for governments to respond and take climate change seriously.
