

LLK10U

Gas Chargrills

Universo chargrills have been sold in the UK for many years and are reliable, sturdy machines.

The cooking is carried out by shielded burners in tubular stainless steel; these burners heat the lava rock laid on special supports made of heavy duty stainless steel mesh. The frame and combustion chamber are made entirely of heavy gauge stainless steel. The cooking grill is height adjustable by means of two levers at the front and a removable tray collects dripping fat and ash.

We have been selling these units for many years. People who use them, love them!
