RE: National Conductor Constructors (NCC)

To Whom It May Concern,

National Conductor Constructors is a company which holds safety to the highest regard, and ensures that quality work is performed the first time. NCC has proven to be a company willing to work as a partner on any given project to make the job successful.

Its personnel – from top to bottom – has been highly professional, driven, transparent when it comes to staying ahead of potential issues which may impact schedule or cost, and willing to do whatever it takes to get the job done.

I look forward to working with NCC on future projects.

Sincerely,

Devon Claycamp
Project Contracts Manager
