

ECLIPSE CROSS

CROSS OVER TO EXTRAORDINARY

The Mitsubishi Eclipse Cross defies ordinary. Indeed, it's a mid-sized SUV that will stand out from any crowd.

From the trademark front grille to the coupe style roof line and truly distinctive rear, this is a seriously stand out design. And its talents go more than skin deep. Superbly spacious with a commanding view of the road, it is robust with Mitsubishi's 4x4 heritage.

In short, this petrol powered SUV with 4WD offers all the features and benefits you'd expect from the marque.

"looks distinctive enough to be recognisable in this crazy crowded market" Top Gear

"handsome and distinctive, sporty and exciting looking... It certainly doesn't resemble any other SUV on sale." The Express

"before properly putting the Eclipse Cross to the test, it already has an advantage over all that other bland stuff in this sector, and that's authenticity. Mitsubishi makes four-wheel drives that are tough and designed to do the job..." Car magazine

THE 4x4 CROSSOVER FROM 4x4 EXPERTS

With five World Rally Championship titles and more Dakar Rally wins than anyone else, Mitsubishi is the true master of all-wheel-drive. And, although much simpler than the 4x4 system used on the rallying Lancers, the Eclipse Cross uses a similar control system.

S-AWC gathers information on steering, brakes, driveline and yaw, then controls the 4x4 system and the brakes across the axles to direct torque to the wheel with most grip and optimise it for the terrain.

The result is a vehicle which doesn't just look the part. It is a vehicle which really does offer increased straight line stability, enhanced cornering and increased traction and control, even when the going gets a little tough.

And even two-wheel-drive Eclipse Cross models achieve enhanced levels of stability and cornering performance courtesy of Active Yaw Control, since AYC controls the front braking forces to help the driver maintain the intended driving line through corners.

TAMING THE TARMAC EVERY DAY

Of course most of the time most of your driving will take place on smooth tarmac and under clear skies. So the Mitsubishi Eclipse Cross is set up for maximum comfort and minimal stress.

Driven by a 1.5 turbo direct injection petrol engine with Auto Stop & Go, it provides truly impressive power and performance for its size. It also ensures a spread of torque more usually associated with a diesel, which means that it responds willingly from really low revs yet still reacts promptly at the top end. And it's quite amazingly quiet too.

"the Eclipse Cross is a solid all-rounder, one that feels impressively well screwed together." Autocar

Mated to this engine is a choice of a sporty, short-throw 6-speed manual transmission or a CVT auto with 8-speed sport mode and manual override. This new generation Continuously Variable automatic Transmission provides power seamlessly for a smoother ride and reduced power loss. And it's truly efficient, ensuring fuel consumption returns similar to those of the manual.

FIVE STAR SAFETY

The Eclipse Cross secured maximum points in many of the Euro NCAP vehicle safety tests, and shone particularly brightly in those for both Adult Protection and Pedestrian Protection – the latter often an element of concern for SUVs.

Of course, you'd expect nothing less from a company with Mitsubishi's pedigree. As with all Mitsubishi vehicles the proprietary RISE (Reinforced Impact Safety Evolution) system integrates and interconnects the structural elements, providing a dramatic advance in multidirectional impact safety performance, dispersing energy loads during front, side and rear crashes and controlling distortion.

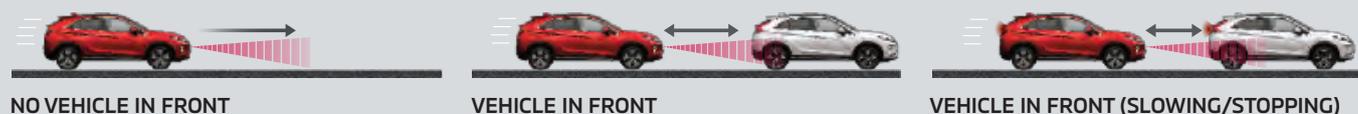

But it is the raft of active safety features which really sets this SUV apart. Stability and traction control systems, Forward Collision Mitigation and Lane Departure Warning, cruise control, a reversing camera, really clever braking systems, daytime running lights and seven airbags are standard on the entire range. Eclipse Cross Dynamic adds front and rear parking sensors and Eclipse Cross Exceed also features a 360° camera with Blind Spot Warning and Rear Cross Traffic Alert, Lane Change Assist and Adaptive Cruise Control.

All Eclipse Cross vehicles feature a Forward Collision Mitigation system which provides an audible warning and braking assistance at speeds of up to 50mph, and in NCAP tests it avoided or mitigated collisions every

single time. But on the Eclipse Cross Exceed models this is enhanced and works in conjunction with the Adaptive Cruise Control to provide braking assistance at speeds of up to 110mph. It will even apply the parking brake.

ADAPTIVE CRUISE CONTROL (ACC)

FORWARD COLLISION MITIGATION (FCM)

SMARTER IN EVERY WAY IMAGINABLE

A distinctive, driver-centric cockpit is enhanced by exceptional levels of specification. Automatic air conditioning, electric windows and door mirrors, even heated seats you might expect, but all Eclipse Cross models are also fitted with Smartphone link Display Audio, housed in a neat screen on top of the dash. So now you can maximise on all the features of your Smartphone and it means that mapping is current and traffic updates live. You can even talk to your car using your phone's voice control system or, if you prefer, operate it with the touch pad controller.

"For Apple iOS we used the CarPlay system which mirrors the iPhone it's connected to. We found the system to be excellent."

The Express

YOUR SPACE, YOUR DRIVE

One of the everlasting joys of driving an SUV is its lofty attitude and, much as you'd expect from the 4x4 experts, the Eclipse Cross' position is even more advantageous than most.

Access is easy and the interior generous, with plenty of room for six-footers in the rear and exceptionally adjustable seats that enable you to favour people or parcels at will.

And, as always with Mitsubishi, the difference is in the detail, with privacy glass as standard and an amazing panoramic glass sunroof on the top of the range to let the outside in to your very own space.

POWER PANORAMIC SUNROOF

The stylish twin sunroofs with outer sliding glass open up the atmosphere for the driver and all passengers. Each shade can be separately operated to let in refreshing sunlight.

"The Eclipse Cross carves a lot of people space from its compact footprint." Top Gear

mitsubishi aftersales care

With a new Mitsubishi, you not only get a safe and reliable vehicle that is a real pleasure to drive, you also become part of the Mitsubishi family. And as our nearest and dearest, we want you to feel protected should you ever encounter a problem – that's why we have me&my, which encompasses a wide range of benefits:

- A comprehensive **five-year, 62,500-mile warranty** (please ask your Authorised Mitsubishi Dealer for full details)
- The **Mitsubishi Assistance Package (MAP)**, which provides the reassurance of roadside or home breakdown assistance for the first three years following registration. It includes vehicle recovery following a breakdown or accident, help if your vehicle is stolen or vandalised, and even if you should accidentally fill up with the wrong fuel. 24/7 cover extends to over 30 countries throughout Europe. So wherever you are and whatever you're doing, if the unexpected does happen help is always at hand
- In the unfortunate event of an accident we have **Mitsubishi First** – our customer support service for all Mitsubishi drivers. No matter which insurer you use, Mitsubishi First smooths your progress through an insurance claim, handling everything on your behalf – and all at absolutely no cost to you

And once you're part of the family... it's service with a smile.

A **Mitsubishi Service Plan**, purchased at the same time as your vehicle, covers the first three scheduled services for a modest sum. It can be included in your vehicle's finance and transferred to a new owner if you sell.

Mitsubishi Motors also offer superior insurance cover at a competitive price which is specifically designed for Mitsubishi vehicles and uses only genuine parts and approved repair centres.

These figures may not reflect real life driving results, which will depend on a number of factors including accessories fitted (post-registration), variations in weather, driving style and vehicle load. There is a new test used for fuel consumption and CO₂ figures. The CO₂ figures shown however are based on the outgoing test cycle and will be used to calculate vehicle tax on first registration.

MITSUBISHI MOTORS RECYCLING

We all have a duty to protect the environment. After a long working life we will take back any Mitsubishi Motors vehicle originally sold by The Colt Car Company Ltd. and recycle it in an environmentally friendly manner in accordance with the EU Directive on End-of-Life Vehicles and any applicable national statutory provisions.

All Mitsubishi Motors vehicles sold by The Colt Car Company Ltd., irrespective of date of sale, will be taken back free of charge from the last owner, at one of the designated take-back points, provided the vehicle contains all major components and is free of waste.

For further information please visit www.cartakeback.com, email info@cartakeback.com or call the Cartakeback info-line on 0845 257 32 33.

Mitsubishi Motors policy is one of continuous product development and the right is reserved to change specification, features and prices without prior notice. The specification of vehicles illustrated in this publication may not be applicable to the UK market. Although every effort has been made to ensure that the written information was accurate, up-to-date and consistent with UK specification at the time of going to press, this brochure should not be regarded as infallible and, as such, does not constitute an offer for the sale of any particular vehicle. No part of this publication may be reproduced in any form or by any means, without the prior written permission of The Colt Car Company Limited.
