

CONFERENCE AREA 1: 12:30 PM- 1:30 PM
Motors Starters~ What Technology to Use?

Presenter: Jeff Miller, President, JMB & Associates LLC
Jeff Miller brings 35 years of experience in motor control. Learn the do's and don'ts for each technology, including when to use a variable frequency drive, a soft starter or a plain combination motor starter. Energy savings and control will be the focus.

CONFERENCE AREA 2: 12:30 PM- 1:30 PM
The World of Water Treatment and the Solutions it Provides

Presenter: Water Doctors
General maintenance and proper upkeep for all your water treatment needs. Many times it is the small things that can save time and upkeep costs. We will address both large and smaller equipment ranging from filtration and softening to UV and reverse osmosis systems.

CONFERENCE AREA 1: 2 PM- 3 PM
How to Navigate the Vast Differences in Vibration Monitoring Systems

Presenter: David Carabello, VibeTekk
Gain a better understanding of how to choose a monitoring solution for your application, and what to expect from the system once it is installed. Simple monitoring solutions, mid-level diagnostics, and a full-blown on-line monitoring system will be covered.

CONFERENCE AREA 2: 2 PM -3 PM
Improving Communication and Productivity with Two-Way Radios

Presenter: GenComm
We will discuss the challenges of communication in your facilities. Cell phones can cause distraction and reduce productivity. Two-way radios keep the lines of communication open and keep your employees safe and productive

CONFERENCE AREA 3: WEDNESDAY & THURSDAY, FEBRUARY 21-22 12:30 PM- 4:30 PM
Power Quality for Energy Efficient Retrofits & Renewable Power #23154

Presenter: John Houdek, President of Allied Industrial Marketing & Retired Adjunct Assistant Professor at MSOE. John has over 35 years of experience in solving power quality problems.

Thursday, February 22, 2024

CONFERENCE AREA 1: 12:30 PM- 1:30 PM

Facility Owner to Contractor- Environmental Awareness during Renovation

Presenter: Michael Ruenz, Balestrieri Environmental & Development Inc- Field Safety Manager

A building owner is obligated under federal ruling to notify its contractors, maintenance staff & custodial personnel of the presence of all environmental hazards within the construction envelope of their building. Attend this seminar for an in-depth overview of where to look and what to know, keeping occupants and employees safe from environmental hazards while safely conducting operations during renovations at your facility.

CONFERENCE AREA 2: 12:30 PM- 1:30 PM

Sustainability~ Being Smart About Energy

Presenter: Nate Collins, Sales Manager, Hastings Air Energy Control, Inc

Energy is expensive and among the biggest costs for companies. Now more than ever businesses of all sizes are looking for ways to manage their energy resources to help minimize costs and maximize profitability. We will address utilizing the most energy efficient air filtration technology, air flow equipment, and dust collection systems in the industry with new technology to demonstrate how energy is managed and monitored to make sure you're using only what you need— and not a kilowatt more. Using less energy means paying less, which helps your bottom line.

CONFERENCE AREA 1: 2 PM- 3 PM

Repair- Don't Replace— Buildings, Structures, and Corroded Equipment

Presenter: Kevin Padera, ENECON

Repair, Don't Replace corroded mechanical equipment, buildings, and plant structures? Yes You Can! Learn how to repair concrete, storage tanks, air handlers, cooling towers, chillers, tube sheets, and pipes utilizing polymer systems.
