

Roy Vaden Pools

November 10, 2020

Dear Customers,

It is with mixed emotions that Roy and I say farewell to you our loyal customers. Our last day of operation will be December 10th. We will continue to do business as usual through this date. The store will be operating and our service staff will be working as normal Mondays through Saturdays.

We regret that we did not sell the business to someone who would continue providing for our customers. The business is still for sale but, if sold it will not be in the present location. Proctor and Graves Plumbing Company has purchased our building and they will be taking over the building the first of the new year.

We want to share with you how we began this long journey in 1985! In the early 1970's, Roy Vaden Pools started as a construction business installing inground swimming pools. Due to the demand for pool products and service we opened our first store on Lebanon Road in Mt. Juliet in 1985. Mt. Juliet was barely on the map in those days but, it was destined to grow. Since then our business has served some 2nd and 3rd generation customers!

Roy and I would be leaving out the most important part of our story if we did not mention our wonderful staff! As you all know, our store and service staff do their work as professionals with a personal touch. Their goal has always been to take care of every customer! We have been blessed with each of these employees who are now family to us. Roy Vaden Pools would not have lasted this long without these great employees, our marketing consultant, and our vendors.

Oddly enough, the business ends as it began! Roy will continue Roy Vaden Pools Construction. He will be building inground pools in Wilson County. We would be remiss not to say that there are other pool stores and service businesses in the area who are available will take good care of you. Like us, they will work hard to take care of you.

Every spring we have enjoyed seeing familiar and new faces come into the store. You have challenged us and made our business what it is! Whether it was grilling on the Big Green Egg or having fun in the pool, your backyards have been the heart of the business.

Roy Vaden Pools sends you our thanks for your business and support! We wish the best for all of you in the future. Happy holidays to all of you!

Roy and Janet
