

DAY OF EVENT - COVID-19 QUESTIONNAIRE

Each Leader must complete this form to include **every student and adult** accompanying their group to Momentum. It should be completed no earlier than 24 hours prior to your departure in an attempt to prevent any potentially ill individuals from traveling with your group. This completed form must be turned in upon arrival.

An inherent risk of exposure to COVID-19 exists in any public place where people are present. COVID-19 is a contagious virus that can lead to severe illness and death. According to the Centers for Disease Control and Prevention, senior citizens and those with underlying medical conditions are especially vulnerable. By attending this Illinois Student Ministries event, I voluntarily assume all risks for my group related to exposure to COVID-19 and hold harmless Illinois Student Ministries from all liability related thereto.

Leaders are required to conduct a temperature check on each attendee in their group prior to their departure for the event. Anyone with a temperature 100.4° or higher shall not be allowed to attend. If you or anyone within your group develop symptoms of COVID-19 while at the event, they will be isolated and potentially asked to leave the event.

The following 3 questions must be asked of EVERY ATTENDEE. If anyone answers YES to any of these questions, they will not attend the event in person:

1. Have you tested positive for COVID-19 in the past 14 days?
2. Have you knowingly had contact with anyone who has tested positive for COVID-19 in the past 14 days?
3. Have you had any of these NEW symptoms in the past 14 days?
 - Fever of 100.4 or higher (without fever reducing medication)
 - Feeling feverish (chills, sweating)
 - New cough
 - Difficulty breathing
 - Sore throat
 - Muscle aches or body aches
 - Vomiting or diarrhea
 - New loss of taste or smell

As my church's group leader, I hereby attest that the following attendees are approved to attend this event based on (1) their responses to the above questions and (2) their temp check of UNDER 100.4°:
