Section 2 - How super works

Superannuation is a tax effective way to save for your retirement and it is, in part, compulsory. For many Australians, superannuation will be their main source of retirement income. The Government provides tax concessions and other benefits which generally makes superannuation one of the best long term investment products.

It's your choice

Generally, your employer must make regular compulsory contributions to your superannuation fund, known as Superannuation Guarantee (SG) contributions. Most people can choose the super fund for these contributions; it's called having a "Choice of Fund". It is important to tell your employer which super fund you want your SG contributions paid into, otherwise they'll be paid into an account in your name in your employer's default fund. It's important you take an interest in your super and help it grow into a healthy retirement nest egg. Contact your employer to check whether you can make a Choice of Fund. Further information is available from www.ato.gov.au/super.

Contributing to super

You can choose to make additional voluntary contributions to your super account. Even small amounts can help grow your superannuation balance over time. You can make additional contributions by:

- Salary sacrificing – asking your employer to deduct additional contributions from your pay before tax is deducted;
- Making personal contributions from your own savings or after-tax earnings;
- Self-employed contributions – self-employed members may be able to claim a tax deduction for their superannuation contributions; and
- Transferring (also called "rolling over") the superannuation you have in another fund to your Simple Choice Super account.

When you make personal contributions to your super account, you may be entitled to a co-contribution from the Government.

Annual limits apply to the amount of contributions that can be paid into your super fund – both from your employer and personally. Further information is provided in the Additional Information Booklet available at www.simplechoicesuper.com.au or by calling us on 1300 352 734.

By combining the accounts you have with different super funds, you may save on fees and will be able to easily keep track of your investments. You may be able to combine your super into your Simple Choice Super account online through the Member Portal at www.simplechoicesuper.com.au. Alternatively, you can download a paper rollover form from the Member Portal. We recommend you seek financial advice and consider any fees or loss of insurance or other benefits before combining your accounts.

Super is there for your retirement

Superannuation is intended to provide for your retirement and you generally cannot access your super until you reach your preservation age (between ages 55-60, depending on your date of birth). There are some circumstances when you can withdraw your super earlier, such as severe financial hardship. Once you reach age 60 and permanently retire, your money can be taken out of super tax free as a pension income stream or a lump sum.

For more information about how super works, see Section 1 of the Additional Information Booklet available at www.simplechoicesuper.com.au or call 1300 352 734. You should also visit the How Super Works section of the Australian Securities and Investments Commission (ASIC) website www.moneySMART.gov.au. You should read the important information about how super works before making a decision. The information relating to how superannuation works may change between reading this PDS and the day when you acquire this product.

The information relating to the benefits of investing with Simple Choice Super may change between the time you read this PDS and the day when you acquire this product.

Section 4 - Risks of super

Superannuation, like all investments, carries risks.

Simple Choice Super invests in different types of assets, including Australian shares, International shares, property, alternative assets and fixed interest. The Fund may gain exposure to these assets via investment in Exchange Traded Funds (ETFs) listed on the Australian Stock Exchange (ASX). Different asset classes behave differently over time and inherently have different levels of risk. Assets with the highest long-term returns may also carry the highest level of short-term risk.

The appropriate level of risk for you will depend on a range of factors including your age, your investment timeframes, your risk tolerance and what other investments you hold and how they are invested. You need to assess your personal situation carefully before making an investment decision.

When considering your investment in super, it is important to understand that:

- The value of your investment will go up and down depending on the market prices of the assets held by your investment option;
- Returns are not guaranteed and will vary, so future investment returns may differ from past returns;
- You may lose some or all of your money;
- The amount of your super savings (including contributions and returns) may not be enough to provide adequately for your retirement; and
- Superannuation laws may change in the future.

The significant risks associated with this product include investment risks such as risks arising from:

- Changes in the economic and political climate;
- Changes in government policies and superannuation laws;
- Changes in interest rates;
- Use of derivatives;
- Inadequate diversification;
- Investment decisions made by the Investment Manager or external fund managers.

When considering an investment in Simple Choice Super, you should also bear in mind ethical screening risk. Simple Choice Super's investments are screened in relation to ethical and other values, reducing the possible number of investments Simple Choice Super may invest in.

For more information about the risks of investing with Simple Choice Super, see Section 3 of the Additional Information Booklet available at www.simplechoicesuper.com.au or call 1300 352 734. You should read the important information about the risks of investing with Simple Choice Super before making a decision. The information relating to the risks of investing with Simple Choice Super may change between the time you read this PDS and the day when you acquire this product.

You can also keep up to date with Simple Choice Super's unit price, performance and portfolio holdings at www.simplechoicesuper.com.au.

There may be periods where uncertainty occurs in investment markets. In these situations, strategic action may need to be taken to make changes to the underlying allocation of assets or investment categories. Any decision taken will depend on the length of time the uncertainty is expected to persist. In uncertain periods for investment markets, we make seek the advice or recommendation of the Investment Manager or external fund managers.

Environmental, Social and Ethical Investment Criteria

With the assistance of our service providers, we take environmental, social, ethical and labour standards into account in the selection, retention or realisation of investments.

Simple Choice Super's Investment Manager engages in a negative screening process which seeks to exclude the following activities from the Fund's investments:

- **Fossil fuels** - no exposure to companies directly involved in the mining or burning of fossil fuels, or companies which have fossil fuel reserves.
- **Tobacco** - no exposure to companies which produce or manufacture tobacco products, or make more than 10% of their revenue from the sale of tobacco products.
- **Armaments** - no exposure to companies which produce or manufacture weapons or armaments.
- **Gambling** - no exposure to companies which derive more than 10% of their revenue from gambling services.

For more information about investments, see Section 4 of the Additional Information Booklet available at www.simplechoicesuper.com.au or call 1300 352 734. You should read the important information about investments before making a decision. The information relating to investments may change between the time you read this PDS and the day when you acquire this product.

Section 6 - Fees and costs

You should read all the information about fees and costs because it is important to understand their impact on your investment. You can also use this information to compare costs between different superannuation products.

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000). You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You or your employer, as applicable, may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.*

To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (www.moneysmart.gov.au) has a superannuation calculator to help you compare different fee options.

*This text is required by law. Simple Choice Super does not negotiate fees and costs.

The following table sets out the fees and other costs that you may be charged in relation to your Simple Choice Super account. These fees and other costs may be deducted directly from your account balance, from the calculation of the investment return before it is allocated to your account, or from the Fund's assets as a whole. The fees quoted in this section are inclusive of GST. Other fees, such as activity fees, advice fees for personal advice and insurance fees, may also be charged, but these will depend on the nature of the activity, advice or insurance chosen by you. Entry fees and exit fees cannot be charged. For information about taxes, see *Section 7 - How super is taxed*.

For a list of definitions relating to fees please refer to Section 5 of the Simple Choice Super Additional Information Booklet available at www.simplechoicesuper.com.au.

³ Unit prices are calculated weekly.

⁴ The buy-sell spread is a mechanism to recover transaction costs incurred by the Trustee in relation to the purchase or sale of assets for Simple Choice Super when monies move into, or out of, an investment option in Simple Choice Super.

⁵ Other fees, such as activity fees, advice fees for personal advice and insurance fees, may also be charged, but these will depend on the nature of the activity, advice or insurance chosen by you. Refer to the Additional Information Booklet available at www.simplechoicesuper.com.au for more information. Taxes, insurance fees and other costs relating to insurance are set out in sections 7 and 8 of this PDS.

Actual costs may vary depending on the investment option you choose. If actual costs vary considerably from this estimate, the estimate will be updated.

Section 7 - How super is taxed

Superannuation may be taxed at three distinct phases: When contributions are made to your account; on earnings that are generated for or by the superannuation fund; and when withdrawals are made from your account.

Tax on contributions to your super account*

Type of Contribution	Contribution Cap	Tax Rate
Concessional (before-tax contributions) e.g. employer contributions, salary sacrifice contributions, contributions by those who are substantially self-employed.	The concessional contributions cap is \$25,000 per annum.	15%^ - If the contribution cap is exceeded, the rate is your top marginal rate plus the Medicare Levy.
Non-Concessional (after-tax contributions) e.g. personal contributions, spouse contributions.	The non-concessional contributions cap is \$100,000 per annum or \$300,000 under the bring forward rule.#	Nil - If the contribution cap is exceeded, the rate is your top marginal rate plus the Medicare levy.

* This information relates to the financial year 1 July 2019 to 30 June 2020.

^ Those earning over \$250,000 per annum are required to pay contributions tax of 30%, while those earning less than \$37,000 per annum may be eligible to receive low income super tax offset on the 15% contributions tax, provided we have your tax file number on record.

If you are under 65 years of age, you may be eligible to make non-concessional contributions of up to three times the annual non-concessional contributions cap in a single year. This is known as the "bring forward" rule. For more information, see the Additional Information Booklet available at www.simplechoicesuper.com.au.

WARNING: There will be taxation consequences if the applicable contribution caps are exceeded.

Tax on investment earnings

The earnings in the Fund for accumulation member accounts will be taxed at a maximum rate of 15%, however the rate may be lower due to tax credits or other tax rebates. This tax is calculated and deducted before investment returns are applied to your super account. In cases where any tax is deducted from your superannuation contributions or balance, it is forwarded by us to the ATO.

WARNING: You should provide your TFN when acquiring this product. If we don't hold your TFN then: higher tax will apply to your concessional contributions; we cannot accept member contributions for you; the tax on superannuation benefits may be higher; and it may be more difficult to locate any lost super benefits or consolidate your superannuation. The Trustee has also determined that it will not accept (or will refund within 30 days) any concessional contributions received for a member where a TFN is not held for that member. Further information about tax is available from www.ato.gov.au.

Tax on withdrawals as a lump sum from your super account*

Component	Comments	Tax Rate
Taxable component	Up to preservation age	20% + Medicare Levy
	Preservation age to 59 years of age	No tax up to \$210,000 then 15% + Medicare Levy on the balance
Tax-free component	60 years of age and over;	Nil
	No tax is payable	Nil

* This information relates to the financial year 1 July 2019 to 30 June 2020.

Tax on insured benefits

Total and Permanent Disablement benefit	Total and Permanent Disablement benefits are taxed at different rates, depending on your age when you were disabled.
Income Protection benefit	The benefits paid under Income Protection cover are paid as taxable income, similar to salary or wages. Any payments will be made once PAYG tax has been deducted.

For more information about tax (including contribution caps), see Section 6 of the Additional Information Booklet available at www.simplechoicesuper.com.au or call 1300 352 734. You should read the important information about tax before making a decision. The information relating to tax may change between the time you read this PDS and the day when you acquire this product.

Section 8 - Insurance in your super

Subject to meeting eligibility requirements, you may be able to access the following types of insurance cover as a member of Simple Choice Super:

Type of Insurance	Description of Insurance
Death cover	A lump sum benefit is payable in the event of your death or terminal illness diagnosis. You can advise the Trustee of the person you would like to receive your death benefit if you die through a non-lapsing binding or non-binding nomination.
Death and Total and Permanent Disablement (TPD) cover	A lump sum is payable in the event you become totally and permanent disabled.
Income Protection cover	Also known as Salary Continuance cover, this type of insurance cover pays a regular monthly income should you be unable to work due to illness or injury (subject to acceptance of your claim by the Insurer).

There are costs associated with insurance cover. Different premium rates apply to different types of cover based on your personal circumstances including your age, gender, occupation, health status and the amount of cover you elect to hold. You are responsible for paying the insurance costs. Insurance premiums, calculated in accordance with the relevant insurance premium table, and taking into account any loadings which may apply specifically to you, are deducted from your account monthly and may be adjusted for any changes to your cover during a financial year. We remit premiums to the Insurer monthly.

Insurance cover only commences once the Insurer has accepted your application. Insurance cover ceases in certain circumstances, including when your maximum insurable age is reached, there is insufficient money in your account to pay for cover, or your account is deemed to have been inactive for 16 consecutive months. If your insurance ceases for any reason and you later decide you want to recommence cover, you will need to apply and be accepted by the Insurer.

Eligible members can obtain insurance cover by transferring existing cover held within another super fund when rolling over to Simple Choice Super under transfer terms acceptable to the Insurer. The Insurance Transfer form is available by contacting us on 1300 352 734.

Insurance cover is optional with Simple Choice Super. Information about the insurance offered and how to apply for cover is provided in the Insurance Guide which is available at www.simplechoicesuper.com.au or by contacting Simple Choice Super on 1300 352 734 or by email to info@simplechoicesuper.com.au.

WARNING: Insurance terms and conditions (in particular eligibility criteria, cover cessation circumstances and exclusions) may affect your entitlement to insurance cover or the payment of insured benefits, so you should read the Insurance Guide before deciding whether insurance is appropriate for you.

For more information about insurance (including when cover starts and ends, eligibility criteria for commencement of cover and payment of insured benefits, the level and types of cover available, premium costs, exclusions, and other important terms and conditions) see the Insurance Guide available at www.simplechoicesuper.com.au or call 1300 352 734. You should read the important information about insurance before making a decision. The information relating to insurance may change between the time you read this PDS and the day when you acquire this product.
