

ALINEA ENGAGE

Screening, Fall Mitigation, and Rehab Referral Workflows

Build a Strong Caseload and Help Seniors Thrive

Providing Care at the First Sign of Need, Mitigating Fall Risk, and Efficiently Tracking Referrals

With Alinea, Rehab Providers easily and proactively monitor the needs of all residents - not just patients on caseload - ensuring care is delivered at the first sign of need.

Our simple but powerful workflows also help therapists and staff track, manage, and respond to referrals - as well as proactively mitigate fall risk, ensuring prompt follow-up when falls do occur.

Now therapists from multiple disciplines and staff can efficiently communicate and coordinate efforts, allowing centralized teams to easily monitor efficacy and results.

Highly configurable to the unique workflows and objectives of any setting, we currently serve Skilled Nursing Facilities, Assisted and Independent Living Communities, and Memory Care Communities.

“

Unlike ever before, Alinea allows our organization to streamline screening processes across all regions of our company - and immediately analyze results.

- **Regional Rehab Director**

THE GOAL IS SIMPLE

Efficiently keep your finger on the pulse of all residents within Senior Communities, not just those on caseload - demonstrating measurable value to the Senior Communities

“

I've needed this tool for the last 20 years!

We've identified more falls through this Screening Program than ever before. Falls that even the facility didn't know about.

-- Rehab Director

✓ Optimize Outcomes and Caseload

Ensure all residents (not just currently active therapy patients) receive optimal care at first sign of need, mitigating further problems, while monitoring prompt response to fall events.

✓ Real-Time Reporting Insights

Prompt action of decentralized therapists and staff to ensure compliance with your best practices, while giving centralized teams and management oversight and actionable data.

✓ Track Referrals and Conversion of Evals to Therapy

Do you have insight into how your teams track and respond to referrals? Or the percentage of evaluations that do not convert into active therapy and why? You can now.

✓ Ace Audits in Advance

Customers tell us Alinea is reducing their audit risk and burden with clear, immediate access to screening, referral, and fall history at fingertips. Not everyday you can awe an auditor!
