

## Francis Marion University

Francis Marion University (FMU) offers dual enrollment courses to students in partnering high schools through its Dual Enrollment Program. This program gives qualified students the opportunity to receive college credit for courses while still in high school. Courses are offered at the Continuum, online and in various partnering high schools.

FMU will be offering general education courses that lead to degrees in four major areas:

- Pre-Engineering
- Pre-Nursing
- Education
- Business/Computer
