

Francis Marion University Dual Credit – The Continuum

Fall 2019

The following courses will be offered as dual credit by FMU during the Fall 2019 semester at The Continuum in Lake City:

BIO 103 Environmental Biology Lecture/Lab (4)

A study of the needs of human beings for food, energy, and other natural resources and the effects of their actions on the air, water, soil, plants, and other animals. The diversity of life, plant anatomy and physiology, ecology and evolution will be included. Throughout the course the process of doing science is emphasized.

BUS 150 Introduction to Business (3)

Introduces the fundamental functions and activities of modern business organizations. Topics include: an overview of the economic system, accounting and record keeping, marketing, management, finance, information systems, legal issues, business ethics, and international business. In addition, careers in business and entrepreneurship are considered.

ENG 101 Analysis and Argument (3)

Introduction to critical reading and to composing processes, including invention and revision, through writing analyses and arguments for specific audiences and purposes. Through extensive writing assignments, practice, and peer activities, students will learn to read and write in various rhetorical contexts and will be introduced to documentation of sources. Small class sizes allow individual attention and cooperative learning.

HIST 103 European History to the French Revolution (3)

General survey of European civilization from its ancient origins to the French Revolution with emphasis on major social, economic, intellectual, and political developments.

MATH 134 Probability and Statistics* (3)

Basics of probability, including counting, tree diagrams, conditional probability, binomial and normal distributions, mean, variance, standard deviation, and expected value.

MU 101 – Introduction to Music (3) –Online

Attention is focused on one element of music at a time (melody, harmony, timbre, and texture). Each element is discussed in its historical context, and illustrative examples are played.

POL 101 United States Government (3)

An examination of the United States political institutions with particular attention to the principles, processes, structure, and functions of the national government.

PSY 206 Introductory Psychology (3)

Survey of the biological, experimental (including sensory processes, learning, memory, and motivation), social, personality, and developmental processes. In addition to these content areas, an understanding of scientific methodology will be studied.

SPAN 101 – Elementary Spanish I (3) - Online

An introduction to basic Spanish grammar and vocabulary with an emphasis on oral and written comprehension and communication. Includes use of technology to enhance linguistic proficiency and cultural awareness.

SPAN 102 – Elementary Spanish I (3) – Online**

Further development of oral and written comprehension and communication in the target language. Continued use of technology to enhance linguistic proficiency and cultural awareness

*MATH 134 Prerequisite: Completion of all required high school math.

**SPAN 102 Prerequisite: Completion of SPAN 101 with a grade of C or higher
