ADVANCED LATERAL APPROACHES TO THE SPINE

WEDNESDAY, MAY 26, 2021

As the lateral approach becomes a preferred technique for multiple spinal conditions, this course was created with a specialized focus on the application and hands-on implementation of the lateral approach. Join leading experts as they perform two advanced lateral surgical technique procedures, live from the Seattle Science Foundation.

Registration Details

Wednesday, May 26, 2021
8:30 - 10 a.m. (GMT-5)
6:30 - 8 a.m. (PST)

Pre-registration is required
for this FREE event.
