Viper V570 RGB Black Out Laser Gaming Mouse

The Patriot Viper V570 RGB gaming mouse is one of the most versatile mice on the market today. With its unique FPS and MMO hybrid design, you can dominate in a wider array of games. The dedicated sniper button, will give you the tactical advantage in any FPS game. The highly customizable design allows you to add 34.2g of weight, and custom color 7 LED lighting zones with 16.8 million colors. Paired with the Viper Software, the V570 allows you to program up to 13 buttons for easy access during intense gaming sessions, set up custom RGB profiles and adjust the sensitivity to suit you.

The V570 is equipped with an Xtreme precision laser sensor and Omron switches for reliability and speed while maneuvering through the most demanding games. The Viper Software allows you the flexibility to program four levels of DPI settings up to 12,000 DPI that can be switched on the fly with the press of a button.

Ergonomic design and ceramic foot pads allow for maximum performance and speed over any surface. Backed by Patriot's award winning customer service and a two year warranty, the V570 is compatible with nearly every Windows® operating system, including Windows® 10 and later, and Mac® OS X, or higher.
