

## The ALLIANCE OF CLIMATE AND ENVIRONMENTAL STEWARDS, Inc. (ACES)

ACES is a 501[C](3) corporation devoted to fostering stewardship by building an alliance of collaborating organizations, businesses, NGOs, governmental bodies, educational institutions and individuals committed to contributing to the well-being of our planet now and for future generations.

*"Never doubt that a small group of thoughtful, committed citizens can change the world; indeed, it's the only thing that ever has."*

- Margaret Mead, American cultural anthropologist

Want to make a difference in the well-being of our environment and our future generations? The following opportunities exist at ACES to make a contribution of their talents and skills.

### 1. Planning and Organizational

**Development:** Contribute to the development of specific project plans.

**2. Project Participation:** Join a specific project team and contribute to projects associated with the 4 key initiatives.

**3. Operations:** Contribute to administrative, systems, finance and general operational functions.

**4. Outreach, Organizational Development, Alliance Building:** Connect and interact with existing and new Allies to uncover potential new initiatives where collaboration is essential.

**5. Funding and Fundraising:** Help identify, evaluate, and interact with targeted potential funding and granting organizations.

**6. Marketing/Communications/ Publicity:** Serve on this team to enhance the position and presentation of ACES and our Allies via our web site, social media channels, and targeted communications.

*"The only way forward, if we are going to improve the quality of the environment, is to get everybody involved."*

-Richard Rogers, British-Italian architect

We exist to foster stewardship and motivate local and regional action toward positively impacting the planet's climate and our environment's health.

## Our Approach:

Respecting the axiom "Think Globally, Work Locally, Act Personally." we recognize the need to unite the efforts of individuals and organizations working to address environmental and climate challenges. Independently, much can be and has been achieved; however, we believe that collaboration is essential for the future.

## Current Initiatives:

### Waste Reduction

Stopping pollution at its sources

### Our Waters

Protecting our waterways, shores, banks, and marshes

### Public Awareness

Informing and motivating our communities for action

### Youth Leadership

Supporting the next generation of stewards

## Our Vision for 2023:

Several important initiatives addressing climate change, environmental and economic health related concerns will be active by 2023. ACES is providing networking opportunities for our Allies. Programs to further educate the public and many other initiatives will strengthen the bonds of collaboration.

We see the ACES Youth Corp in leadership roles working with Advisors, Stewards, and Allies on programs and projects directed at improving the legacy of the planet, our environment, and the well-being of theirs and future generations.

## People and Structure:

Those involved with ACES are committed to its purpose of impacting climate change and promoting environmental well-being. Supporters enthusiastically share their passion, unique talents, skills, and knowledge with others. Their professional and personal backgrounds vary, but they are united in our common cause.

## Scope:

ACES will measure its long-term success through consistently evaluating both our contribution to improving our quality of life and the achievement of our goals. Our ultimate goal is to serve as a model for future environmental collaborative organizations beyond the Greater Newburyport, MA area.
