Launch of Stable FOX ($oneFOX)

FOX is included in the C.o.R.E.2. event on Tokemak

The second collateralization of reactors now has started and Tokemak included FOX in the C.o.R.E.2. event. This competition is tough and either way FOX and a new ICHI rewards program. The competition is tough and either way FOX and a new ICHI rewards program.

TOKENS TO WATCH

We are super excited about the fact that Tokemak included FOX in the C.o.R.E.2. competition event. Tokemak is a decentralized liquidity engine protocol aiming to create an efficient, sustainable liquidity across DeFi. Tokemak's native token TOKE, serves as the protocol's tokenized liquidity, enabling stakers to direct the protocol's decentralized liquidity engine providing/market making services.

We are here to build an open ecosystem for DeFi because it enables market participants to express - TVL as liquidity across DeFi markets.

Tokemak's liquidity engine will provide an important service tokenized liquidity, enabling stakers to direct the protocol’s decentralized liquidity engine providing/market making services. The competition is tough and either way FOX and a new ICHI rewards program.
