Definition of Workstream Leader - [Read here](#)

Total Proposed Budget: \$0

- Explicitly defines the roles, responsibilities, and authority of a Workstream Leader, as it relates to:
  - A workstream requiring a single leader.
  - The authority to hire and fire within a workstream.
  - Discretion over the allocation of a budget approved by governance.
- Take effect after 14 days, and apply to all workstreams without a passed superseding proposal.
- Future proposals that create, renew, or amend workstreams will adopt this definition of a Workstream Leader by default unless explicitly defined otherwise.
