PRODUCTS

**Portatrain™** Fire is a portable Fire Alarm System training tool which assists persons responsible for Fire Safety Management to provide instruction in the testing and operation of Fire Alarm System(s) under their jurisdiction in accordance with BS9999.

Portatrain™ Fire enables you to provide training on or off site without causing disruption to other occupants or service users.

Portatrain™ Fire is built to your specification to replicate the exact system(s) on your site(s).

## Features:

- Ultra heavy duty rugged wheeled carry case with built in pull-handle
- Connects to standard mains socket
- Self-supporting in open position
- Fire Alarm Control Panel mounted on swivel bracket to facilitate viewing
- Manual Call Point(s), Fire Detector(s) & Alarm Sounder/Beacon(s) incorporated to your specification
- Alarm warning tone configured to match your premises
- Can be supplied pre-programmed with Cause and Effect as required

Whatever fire alarm system(s) you have installed, take the pain out of Fire Alarm Training with a Portatrain™ Fire Unit from Leading Edge Products.
