# Revolution CMS: a premium lightweight content management system

Edit site settings and SEO

Simple content updates with custom fields

Live editing and instant publishing

Now let's  
take care  
of the finer  
details...

## SEO keyword research

Our marketing team will research the search engine keywords that will maximise your website's search engine visibility and ensure you are easily found online.

## Bespoke website design

Your website will be fully custom designed to match your brand, attract your audience and deliver results. Consistent and professional design, fully mobile device responsive, no themes or cookie-cutter designs.

## Content writing

It's hard writing content for your website, which is why we offer professional copywriting. Keyword-aligned content is written from the information you supply.

## Website strategy

Standard and premium packages include a website strategy that encompasses the business goals, target audience, and keyword targeting.

## Blogging platform

Add an integrated blog to your website and kick it off with three professionally-written articles. Includes blog list, categories, tags and social sharing widget.

## Custom transitions and element animations

In the premium package you get custom designed element transitions and animations, such as button click, on-scroll, and loading animations.

## Revolution CMS

Creative Revolution's premium lightweight content management system (CMS) uses an integrated CMS and server platform infrastructure that provides an extremely reliable, high performance website. Choose a website hosting and support package to access Revolution CMS.

## Custom Packages Available

Have unique requirements? We're more than happy to work out a custom package to meet your needs.
