

How are we keeping you safe?

We are committed to

- 1 A remote-first approach prior to in person appointments
- 2 Dedicated waiting areas and a new queueing and collection system have been introduced to ensure social distancing is maintained

We take social distancing seriously

At all times we aim to

- 3 Adhere to social distancing guidelines within clinics, unless we are required to do otherwise
- 4 Additional time has been allocated to each appointment, ensuring our team have time to clean the treatment room before a new customer arrives

Safety first...

With this in mind:

- 5 Both staff and customers are advised to wear PPE before, during and after the appointments
- 6 Screening prior to your appointment is mandatory, and no appointments can be given to anyone who has shown symptoms for Covid-19 within the past 14 days
