

SMART CABINET

Simplify your asset storage and inventory management with Asset Vue's all-in-one solution.

Smart Cabinet is a secure storage cabinet for your offline digital media paired with technology that enables RFID to read within metal enclosures.

With Asset Vue Smart Cabinet, you can:

SECURE

Securely store and organize your disk drives, assuring that your critical data is protected.

SCAN

Using Asset Vue's powerful RFID-enabled technology — quickly and efficiently scan assets.

SYNC

Sync your Asset Vue Inventory software to conveniently manage and locate your assets in real-time.

More than just disk storage.

Smart Cabinet with Asset Vue Inventory can also be accessed via our mobile app Asset Vue Mobile to read and manage your assets, and includes professional configuration, training, support, and one-year hardware warranty coverage.
