

## Simple and Efficient

[www.SuccessEd.net](http://www.SuccessEd.net)

Teachers and administrators often complain that the RTI process is too complicated and that they struggle with documentation. RTI by SuccessEd fixes that with a simple, straight-forward framework for documenting your efforts to intervene with struggling learners the way you do it in your district.

- What's the identified need?
- What's the plan for intervention?
- How did the intervention work and what's next?

## FEATURES

- Document the identified need for intervention
- Track progress on 1, 2, or 3 tiers
- District-controlled intervention options
- Plan for next steps
- Document classroom and state assessment accommodations
- Parent, teacher, school information forms available to gather data
- Share information with Special Education, Section 504, and EL programs
- Powerful reporting
- Parent notification letters

## OUR CUSTOMERS APPRECIATE THE BENEFITS OF SUCCEEDED RTI

- Highly customizable to reflect district processes
- Simplifies data collection
- Reduces data entry time
- Keeps track of where students are in the process so that none "fall through the cracks"
- Accurate data to inform instructional decisions
- Seamlessly import students from your Student Information System
- Data follows student from year to year and campus to campus
- Shares data with SuccessEd's Special Education, Section 504, and EL modules

### REPORTS

With so many students in the **RTI** process across districts, our users quickly come to rely on our reporting for quick access to student information. Real-time reports include:

- Identified Strategies
- State Assessments
- Student Recommendations
- Bulk Printing of Accelerated Plans/Intensive Programs of Instructions
- Bulk Printing of Behavior Intervention Plans
- Student Directory
- Students by Form

### BUILT BY EDUCATORS, FOR EDUCATORS

For over twenty years, SuccessEd has provided tools to improve the lives of educators and the students and parents that they serve. As former educators, we understand the challenges and pressures that are so often associated with our vocation. Always mindful of this, we pour ourselves into our software solutions - developing tools that improve the quality of life of the educator and help them spend less time with keyboards and more time with kids.

### PARTNERSHIPS & COLLABORATIONS
