

General product information

Kind

Read this document to find out what can be done and how Kind can help you!

At Kind we want professionals within the health sector and individuals to enjoy the benefits of modern communication technology. Our mobile application enables modern and secure communication, where knowledge can be shared and communication is easy and accessible. We meet the needs of organisations of all sizes with a flexible subscription pricing.

Swap old printouts and analog communication for a modern and secure digital channel with secure messaging and targeted knowledge. In order to meet the challenges of today and tomorrow, we must take assistance from technology to scale healthcare exponentially. Our mission is to provide superpowers to the healthcare heroes and bespoke care for the individual.

What does it mean for your clinic?

With a personal login through your computer, laptop or smartphone you can:

- Communicate with your patients with digital messaging.
- Communicate with your colleagues with digital messaging.
- Share information and knowledge through a digital library, built on articles you have provided.
- Send out information to your patients and prepare them for their appointments.

Kind

What does it mean for your patients?

With the app downloaded on their smartphones your patients will:

- Be able to reach your clinic from their home, or anywhere else in the world, with secure digital messaging.
- Get customized information about their treatment.
- Be empowered and prepared for more efficient appointments.

Features

Communication: Use our online communication channel to reach your patients and colleagues through secure and intuitive 2-way messaging or by broadcasting messages to wider patient groups.

Knowledge: Centralize your collective knowledge and make it available 24/7. Increase awareness and patient satisfaction while reducing time spent on repetitive patient interactions.

Security: We value privacy and take security seriously. We offer secure login, complete data encryption and are GDPR compliant for a fully trusted platform service.

Ease: Avoid complex implementations and time-consuming procurement with our adaptive cloud platform and transparent pricing.
