ABOUT US

OUR MISSION

“To empower businesses and organizations through the successful creation of quality branding, design and marketing projects handled with efficiency, professionalism, and an upbeat attitude each step of the way.”

- Shannon Sankar, Owner/Founder

OUR VISION

#KindDesign

COMPANY PROFILE

Standout Arts is a professional website design, graphic design and marketing services provider. Today, we are the #1 Rated Website Design company on Google Reviews for our home base area of Waynesboro, Virginia. Founded in 2013 by Shannon Sankar, Standout Arts works with clients who represent diverse industries, nationwide.

We build and reinforce great brands by listening to our clients, generating ideas, thinking outside the box, and remaining flexible in all that we do.

A few things that help us **STAND OUT:**

In-House Photographer: We know that images are the key to the visual aspects of a great website and attractive visuals. Kim Emerson is our in-house photographer with decades of professional experience in photography.

We Understand Content: Having a copywriting background is imperative to delivering successful website content. We bring our professional experience in advertising copywriting to all of our website projects, ensuring that copy is not only appropriate to the brand and the medium, user-friendly and easy-to-understand, but also suitable for effective on-page SEO.

We Understand Social Media: Websites are the “home base” to your online presence. With that in mind, we’ll ensure that your website is the proper representation of your brand, working in tandem with any social media campaigns that you may be strategizing.

We Understand Traditional Advertising: We have worked with countless businesses, organizations and non-profits over the course of the last 20 years - assisting with advertising campaigns from broadcast to print to digital.

OUR PRIORITIES

We are dedicated to creating long-term value both within the designs and projects that we complete and the relationships that we build with our clients. We believe that a passion for client satisfaction will not only support a sustainable business for us at Standout Arts, but also allow our clients to experience growth from their branding and marketing efforts for many years to come.

Projects for Success

When we design products that build and reinforce our clients' brand, our clients experience results. This leads to repeat business, long-term client relationships and stronger opportunities for the creation of projects that work cohesively

Referral Business

When we work with a goal for excellence on each project, for each client, we repeatedly receive referral business from our trusted clients and colleagues that allow us to organically expand our reach, discover new opportunities and grow our services to better serve all of our clients while sustaining our business in an efficient and community-minded way

CLIENT REVIEWS

“ We are just getting started with building our website and Standout Arts has been outstanding to work with. Shannon, the owner is knowledgeable and very skilled; but more than that, she is a fantastic person of quality character. She listens to our desires and adds delightful professional touches to everything we suggest. Standout Arts is awesome to work with and I would recommend them to anyone. I can hardly wait to see our finished site! Thanks, Standout Arts! You have taken the stress and worry out of building a website. ”

- E. Michal Gayer,
Author, Painter

“ Shannon and Standout Arts are nothing short of brilliant. One of my best business decisions was bringing them on board to consult and guide the direction, content, and presentation of my brand. They have taken me and my brand to the next level and I am beyond excited to see how far we expand and build as we continue to work together. ”

- Anthony Haskins,
Resource Director, *The Dr. Phil Show*

“ Standout Arts have completely changed the face of our business and have helped me with some of the oddest projects you could imagine. Shannon, the owner, has taken an invested interest in Grand Caverns, our business. We wanted to find someone who would be able to take on a large tourist attraction and re-brand ourselves into a more modern/attractive look for all who see us. She's able to provide any and all services, from flyers for an event to complete website redevelopment and overhaul. You won't be disappointed. ”

- Nathan Garrison,
Tourism Director, Grand Caverns

SERVICES

We are the off-site art department for our clients. We partner with business owners, marketing directors, and internal committees to get to know your business or organization, understand your goals, and offer strategic solutions for an efficient course of action.

We are involved as much - or as little - as is right for you. All of our partnerships are created to suit the needs of our clients.

Whether we're working with you on a monthly basis to handle all or a significant amount of your marketing and graphic design or website maintenance projects or simply assisting you with an event flyer, company brochure, or developing a corporate website as a single project, we take our relationship with your business seriously. We work to remain true to your brand and maintain consistency within all of your marketing projects.

PRICING

We understand that one size doesn't fit all. We offer our services either by the hour, at a packaged price, or as part of an ongoing partnership between your business or organization and our team at Standout Arts.

We will work with you at the level that's right for your needs and will explain "what's included" with each of our service agreements.

Our FREE, no-obligation proposal can help you to learn more about all of the unique opportunities in partnering with Standout Arts. We will specify the options that relate to your specific project or marketing goals and advise you as to the option or options that may be best suited to ensure that you receive exactly what you need.

We will help you to understand the ways that you can achieve your goals through specific projects with Standout Arts. Our FREE, no-obligation proposals will outline each project or partnership level to help you receive the most value for your investment

Receive added value each time that you work with Standout Arts. We have a reputation for prompt turn-around on our projects, reliable communication through each project, and flexibility to regroup and revise, as needed.

We work to provide versatile solutions to help you to maximize your budget. Website projects start at \$1500 with the actual cost of your website to depend on your specific goals, size of the site, and overall scope of the project. Other services are available either on a flat-rate, per-project basis, by the hour, or as part of your monthly service agreement with Standout Arts. Our standard, commercial hourly rate is \$125 per hour. Discounted rates for churches and non-profit organizations are available. Discounted, pre-purchased block hours are also available. Monthly retainer options provide the best overall value for our clients through a variety of specific services, each month - such as social media management, professional website maintenance, design of promotional materials, copywriting, photography and consulting services - all through a flat, monthly rate.

OUR COMMITMENT

We are very proud of our reputation. We dedicate ourselves to each project that we take on.

When you partner with Standout Arts, you can be assured that you will receive reliable communication, a vested interest in your goals and success of your business, and a commitment to ensuring your satisfaction in our work.

If you have a specific need that we can't handle in-house, we will help connect you with resources that may be better suited for your project.

If we make a mistake, we will do everything in our power to promptly make a correction. If you're ever unhappy with our services in any way, shape or form, you can count on us to do everything that we possibly can to make things right.

Our top goal is always a successful end result of which we can both be proud.

OUR TEAM

Shannon Sankar, Owner and Creative Director. Shannon founded Standout Arts in 2013 after over a decade in professional advertising, copywriting and graphic design. Shannon has expertise in content development, creative design, copywriting, on-page SEO copy, project management, consulting and client communication. After working in graphic design throughout college and later serving as Creative Director for a five-station radio group in Harrisonburg, VA, Shannon formed Standout Arts as an opportunity to focus her attention on advertising and marketing projects from a visual perspective. An Art Major at Bridgewater College, Shannon has decades of experience in website design and development, graphic design, copywriting, marketing campaign strategies, and project management. Shannon resides in Waynesboro, Virginia with her husband and son. Shannon enjoys drawing, writing, listening to music, jogging, singing in the church choir at Calvary United Methodist Church in Stuarts Draft, VA., traveling, and watching classic television - especially the commercials!

Kim Emerson, Art Director and Photographer. Kim has expertise in layout and design, image editing, photography, typography, proofing and editing. Joining our team after more than 10 years as Assistant Studio Manager at Gentry Photography in Harrisonburg, VA, Kim brings her creativity and attention to detail to every project! A talented artist, Kim works to develop attention-grabbing, creative designs with attractive images and visuals to help ensure that each and every project can truly STAND OUT! Kim resides in Fishersville, Virginia with her husband and enjoys painting, photography, crafting projects and spending time with friends and family, including her church family at Central Point Christian Church in Waynesboro, Virginia.

Brandon Mosco, Web Developer & Digital Marketing Consultant. Brandon has vast and diverse expertise in website development including expertise in web programming languages, website platform structures, CMS structures, web design, website integrations, research, responsive testing and troubleshooting, and is certified in digital marketing and social media marketing including Google AdWords, Google Analytics, Facebook, Twitter, and Instagram. Brandon resides in Latrobe, Pennsylvania where he enjoys learning new technologies, working out, and visiting vineyards and craft breweries with friends and family.

Michael Ruch, Account Executive. Mike provides a variety of client care and account management services for Standout Arts. With an interest in commercial storytelling and branding, Mike helps our clients to develop their marketing messages and build a brand that truly STANDS OUT! Mike manages our exclusive program, Valley Good Neighbor, and assists Standout Arts' clients with projects ranging from website content development to outreach and communication services. Mike got his start in direct sales in the business printing industry in 1985. Since then, he has developed expertise in the design and direct sales of commercial full color printing, screen printed and embroidered apparel, promotional products, trade show display items, web site consulting and social media consulting. Mike lives in Fishersville with his faithful dog, Bella. He is active in his church, First Baptist Staunton, where he serves as a Deacon, sings in the choir, and teaches in the youth program. Mike is also active as a volunteer with JDRF (Juvenile Diabetes Research Foundation), Relay for Life and The Alzheimer's Association.

Jarod Sankar, Videographer & Digital Design Assistant. Jarod is a junior at Liberty University in Lynchburg, VA, where he is studying drafting and architectural design. Jarod holds an Associate of Arts & Sciences Degree from Blue Ridge Community College in Weyers Cave, VA and is a talented artist with experience in social media and graphic design. Jarod provides a variety of services for our clients, including: video editing, graphics for social media, platform and application account setup, as well as assistance in a variety of photography, videography, and graphic design projects. Jarod enjoys drawing, social media, music, traveling, spending time with friends and family, and home construction projects.

Max Sankar, IT Director, Copy Editor, FAA-Registered Drone Pilot, Videographer & Assistant. Max has over 20 years of professional experience in Information Technology and has been assisting Standout Arts since 2013. Max provides manual testing of websites, account setup services, research, copy editing and proofing, as well as a host of IT-related services for both Standout Arts internally as well as for Standout Arts' clients. Max is also a skilled photographer and assists with photo and video sessions. Max is an FAA-registered drone pilot and provides Standout Arts' clients with professional aerial photos and videos via drone. Max also has professional experience in graphic design and freehand artwork. Max is a Senior Network Engineer at Virginia Panel Corporation and lives in Waynesboro, Virginia. Max is active in his church, Calvary United Methodist Church in Stuarts Draft, VA and enjoys all-things related to futuristic technology, traveling, and spending time with family.

BRANDING

LOGO DESIGN

The first visual impression of your business or organization begins with your colors and logo. In fact, branding is one of the most important aspects of your marketing and the development of your business or organization, as a whole.

A logo, for example, should never be something taken lightly. We've heard people discuss "throwing together a logo" or using "clipart" - and while almost everything is about preferences, we advise our clients never to take shortcuts with their branding and logo development. Instead, partner with a design team who takes time to get to know your business, your goals, and your personality. At Standout Arts, we consult with you to understand the message behind the logo and the people behind your business or organization. We can advise you on colors, fonts, tag lines/slogans and help you to tie it all together with your logo.

COLLATERAL MATERIALS

Once your logo is established, complete your branding with complementing collateral material that helps to tell the story of your business or organization.

Carry through with your colors, logo, and font types on internal and external pieces such as:

- Letterhead
- Envelopes
- Folders
- Business Cards
- Brochures
- Flyers
- Presentational Items
- Signage

DESIGN MATTERS

Do you need a website? YES! *"But I have a Facebook page, so I don't need a website, right?"* **WRONG!**

Today, it's imperative that ALL businesses and organizations (and many individuals) have their own website! Why? Social Media is awesome - but it's rented space. You have no control over its look, format, how your content will be displayed - or even if it'll be displayed at all in the future. Your website, on the other hand, is YOUR property...and it's often **the first impression** that your business or organization can make. It's essential that your website properly reflect YOUR BRAND and your accurate information in a manner that's unique and customized to YOUR goals!

This is precisely why your website needs to make for a fantastic representation of you! The look, functionality, representation of your brand, and accuracy of your website's content must all be stellar. And successful performance and user-friendliness across today's mobile devices are critical.

<https://>

It's their first impression...

....

....

A Few Examples of Our Websites

DON'T DIY

Unless you're a professional, it's unlikely that you would try to build your own brick and mortar structure for your business or organization. You realize that proper construction is necessary. Things must be up to code. It must be safe. The space that you choose and the size of your structure must be appropriate for your customers and clients. The appearance and welcoming presentation are usually important. And, you want people to be able to find you! All of this is equally applicable to your website, too!

Unfortunately, DIY Website platforms come with severe limitations - either in appearance or functionality...but usually both. Additionally, the "code clutter" associated with 'drag and drop' platforms is often a problem for search engine optimization (SEO) and sometimes you have little to no control over how to position or display content. DIY platforms that promise ease-of-use usually fail to live up to those claims, costing you hours of time and typically result in the need to, in the end, hire a pro to ensure that it's done correctly.

••••

DEVELOPMENT

The code behind your website determines how it will perform and function across the World Wide Web.

We ensure that our websites are developed to meet today's demands for CSS and HTML while working to accommodate browsers and a multitude of devices.

Our team of website designers and developers will work cooperatively to maintain the look and style of your website without ever sacrificing functionality or compatibility.

<content>it's important</content>

Why Content is King

GOOGLE CARES

Not only does your content work to represent your brand and provide key information to your visitors, it is also the most important aspect of your website's Search Engine Optimization (SEO). We will partner with you to strategize content and copy throughout your website.

§

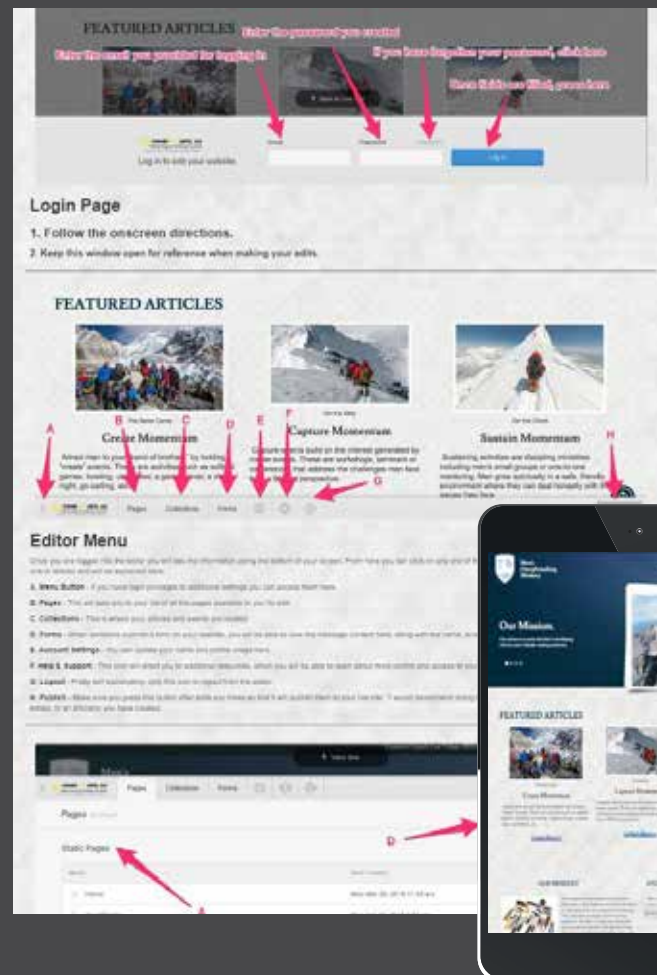

HOSTING

Websites by Standout Arts can be used on any hosting provider of your choice. However, the service that you select for your website is a very important decision. Your website's hosting provider is instrumental in your site's performance, uptime, reliability, and security.

When you work with Standout Arts to facilitate your website's hosting service, you will receive a service that's built to work hand-in-hand with your website's content and back-end development. Key features include:

- SSL Certificate
- Content Management System (CMS)
- Fast, Reliable Servers
- Security Features
- Editor for in-house updates/basic website maintenance that can be made by you or your staff without any software to buy, programming skills, or complicated dashboards

Easily Edit Your Own Website

Why We're Different

OWN IT ALL

When you work with us on your website, your full payment on the project provides you with all of the files. You own your domain. You have control over your hosting. You can edit your website in-house; and we can even send you all of our working files (individual images, documents, etc.)

WE THINK OUTSIDE THE TEMPLATE

When we think of a "theme", we start hearing a few of our favorite television show intros - NOT website templates! At Standout Arts, we're not confined to the limitations of themes or templates. We don't believe you should have to fit your website. Instead, we believe that it's your website that should fit **you**!

4

SEO, ADA, GDPR *(is it all just tma?)*

WEBSITE NEXT STEPS

Launching your new website is just the beginning! Next, we can work with you to optimize your website for search engine performance. We employ SEO basics right from the start of your website's development and content formation. Next, we partner with SEO experts - an entire team of SEO professionals who work to keep up with search engine optimization trends and best practices despite this ever-changing space in technology.

Speaking of changes - ADA (*Americans with Disabilities Act*) compliance for websites is becoming more and more important and may soon become the law. We can help you to get your website's programming and features more compliant to help you better serve more people. We can also assist you with ensuring that you offer the proper Privacy Statements, Terms & Condition information and other elements that are of growing significance for today's websites.

How Does Your Site Measure Up?

AFTER LAUNCH

Partner with Standout Arts to initiate tactics to improve your site's performance in top search engines. We'll work with our team of SEO Specialists to help you to reach your goals. We can advise you on content, assist with copywriting, optimize keywords and meta data, and provide you with regular reports to show how your site is performing against its previous self as well as competitors.

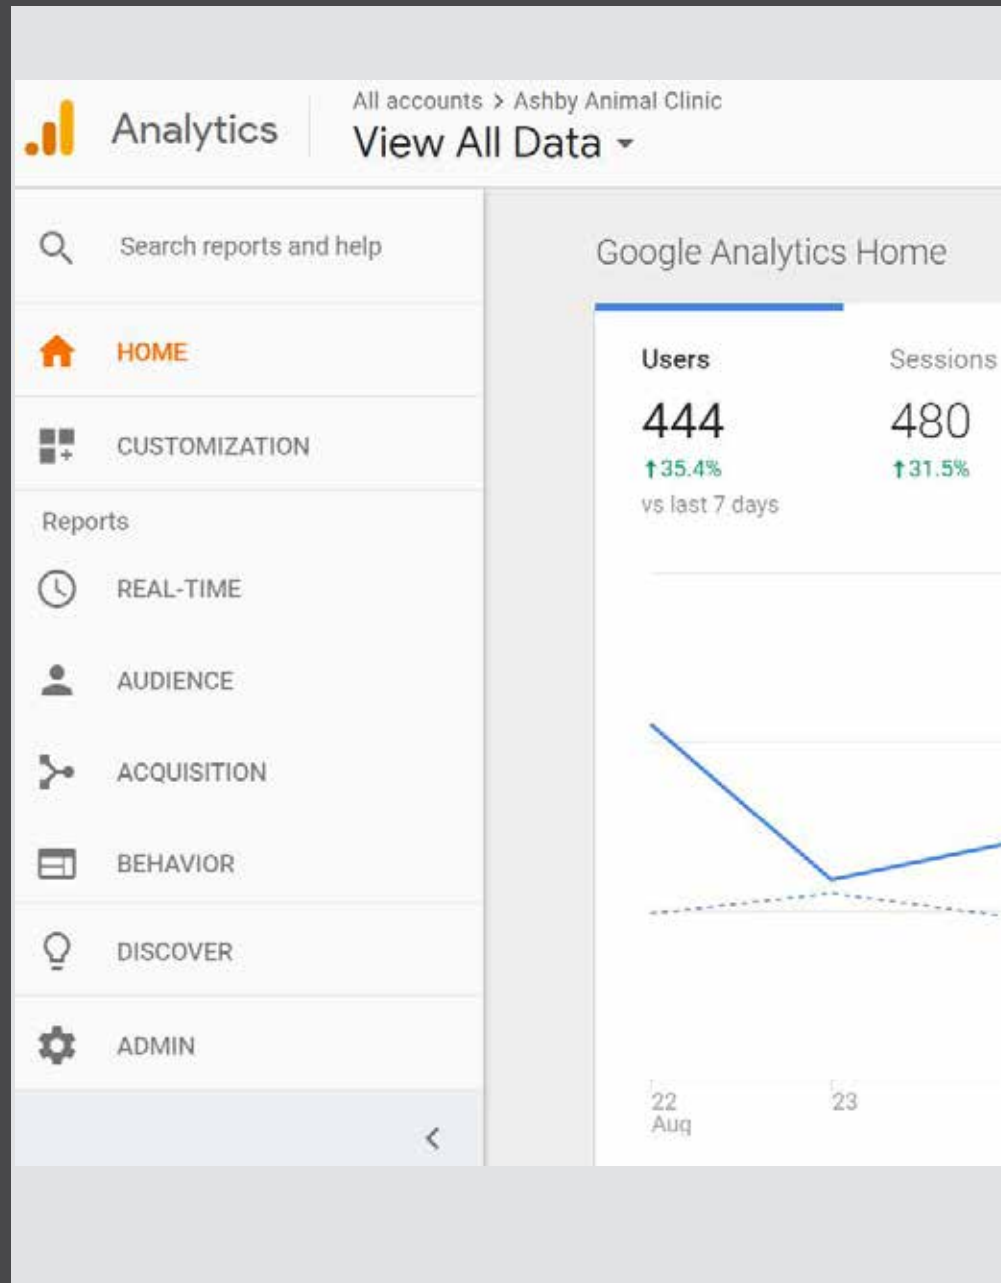

INTEGRATIONS & ANALYTICS

We can assist you in the incorporation of important integrations into your website. Whether it's e-commerce, communication with your in-store inventory, connections with payment processing platforms, forms, online scheduling systems, booking/ appointment applications or a host of other possibilities, we can work with you to ensure that your website grows alongside your goals.

We'll also incorporate performance applications such as Google Analytics to keep track of your website's trends and learn more about your online audiences. This data can help us to keep improving your website over time and help you to target more of your specific demographic.

5 ADVERTISING

PRINT, BROADCAST & DIGITAL

Expand your reach with advertising that properly reflects your message and your brand. We have countless amounts of experience in Ad Campaign assistance and print and digital ad design.

We can also work with you to develop broadcast commercials - television and radio script writing and campaign strategies and media assistance.

PHOTOGRAPHY

A PICTURE IS WORTH...

Our in-house photographer has more than a decade of professional photography experience. From scenic landscapes to commercial products, events to headshots and staff photos, we have the professional equipment and expertise to capture the photographs in the ways that will best serve the application.

Whether it's images for your website and social media or high-resolution photography for printed literature, count on Standout Arts.

PERSONALITY IN YOUR PICTURES

Sure, we can use stock photos as needed - but with our in-house photographer, we can capture the real you with headshot photos, property photographs, scenic and outdoor locations, commercial products for your e-commerce website and so, so much more!

A few things that help us STAND **OUT**:

You Own The Copyright: When you commission us for photography, your investment will include a LIFETIME copyright release. You are free to use your photos anywhere and however long you'd like.

Flexibility: We can come to your location, schedule our photoshoot in a neutral or outdoor area, or make other arrangements as needed. We also offer our photography services either by the hour, a flat package investment, or included with your website package.

Image Editing: We know our way around Photoshop! We'll lighten, brighten, crop, remove, enhance and optimize!

9

VIDEOS

EXPRESS YOURSELF & PROMOTE YOUR BUSINESS or PROPERTY

We will script and direct videoshoots that can help you to express yourself online. Whether it's a :30 second promo video for social media or a 5-20 minute presentational video for YouTube, we can assist you through the process.

We will film your video, clip, trim and edit the video for time and content, add captions, music, voiceover and other post-production enhancements and provide you with completed, formatted videos that are ready to be shared on your website and social media channels.

AERIAL PHOTOS & VIDEOS

We are one of the Augusta County area's few officially-registered FAA drone pilots. We use a state-of-the-art drone that's capable of 4K video and ultra-high resolution images.

Take the view to new heights with breathtaking 360-degree aerial videos and photos that showcase properties, construction sites, roofing and home service projects, and scenic landscapes like you've never imagined before.

Aerial videos and photos are ideal for REALTORS® and tourist attractions.

Our experienced drone pilot will capture quality video and still photos and work that we can finalize in post-production with editing, music, captions, voiceover, and other enhancements.

TALK TO YOUR AUDIENCE

Today, you don't necessarily need a broadcast advertising budget to be seen in a commercial. We can work with you to create videos that can be used on your website, YouTube and other social media platforms.

HOW WE CREATE PROMO VIDEOS:

Scripting: For presentations, testimonials, demonstrations and promotional messages, we'll work with you to provide you with "talking points", as well as an intro and outro. We encourage you to use your own wording and be yourself.

Guidance: We'll prompt you by asking questions, referencing our scripts, and help ensure that we're keeping our video shoot on track.

Post Production: We will finalize your videos by snipping, trimming, adjusting sound and lighting whenever possible, adding music, captions, voiceover, and file formatting so that your video is ready for use on your website or social media channels.

HOW WE DO IT

GETTING STARTED

We typically begin our client partnerships by consulting with you to determine your specific goals and ideas. Next, we prepare a custom proposal of our service to specifically align with our prior discussions regarding your objectives.

Next, we begin our course of action as outlined within our proposal. We keep in communication with you regularly - updating you on the status of your project(s), estimates on turn-around time, and answers to your questions.

For website projects, we begin with the design of the homepage and navigational structure. When approved, we continue our design process while working with you on content, copywriting, photography and images. Upon your approval of your site's layout and per page content, we begin development and on-page SEO. You are provided with a preview link to view your in-progress website online. When complete, we work with you to facilitate any domain registration services, DNS setting changes and facilitation of your hosting. We then provide you with in-house editing instructions and additional services as needed or requested.

CONSULTATION & LISTENING

Once we have established the Needs Analysis to help meet your goals, we will prepare a proposal that will detail our services and all of the options for your successful partnership with Standout Arts. Your proposal is FREE and carries absolutely no obligation whatsoever.

OUR PROPOSALS INCLUDE:

Project Overview: We'll detail the project or projects on which we'll be working and will explain the process for each project, outlining what's to be included and what you can expect from our services.

Company Information: We'll share with you bios and the experience of the team that will be a part of your partnership with Standout Arts and information on what makes us qualified to handle your project or projects.

Timeline Estimates: For larger projects, we'll outline a projected timeline with estimated milestone dates.

Project Options: Wherever applicable, we'll provide you with a variety of options to help you select the partnership or package level that's right for you. We will detail what's included in each level or package and let you know what you can expect from each option. We will include an estimation of total costs whenever possible and let you know what specific service or product is represented by each cost. For monthly retainer options, we'll specify what's included and any limitations of service, with each retainer level.

Payment Schedule: When applicable, we'll provide details on our pricing schedule so that you have a thorough understanding of how invoicing is to be handled and when you can expect to make payment.

Exclusions: We'll specify situations or items that may not be included and let you know how we handle those add-on services. We'll also specify your responsibility as our client and reaffirm our commitment to you and your project.

RECEIVING YOUR PROPOSAL

We typically send our proposals via email with a link to view your proposal online. We often include a video introduction, samples of our work, and other interactive components, as well as references and information on how best to communicate with us throughout our partnership on your project(s).

FREE, NO-OBLIGATION INFORMATION

Our thorough proposals allow you to assess your expectations and budget, understand how best to move forward on your project(s) and what you can expect from our partnership together. We provide this information at NO COST to you. Simply contact us to get started! Once we've assessed your objectives and had an opportunity to ensure that we're on track with your goals for your project(s), we'll prepare a proposal that's custom-developed just for you.
