Upgrade Shoebox Scan* – same as above – 600 dpi	\$45.00 (\$0.45 per image after 100)		
Prints from prints	Scan charges plus printing charges (Qty pricing applies)		

Preparation of Originals for Shoebox Scanning

1. All photos must be submitted at the same time; our workflow doesn't allow for "add-ons"
2. Photos must be un-mounted, not torn, bent, or brittle
3. It is the customer's responsibility to make sure there are no fragile photos included. We are not responsible for damage caused to old or fragile original by our stack scanner
4. Photos must be no smaller than 2.5"x3.5", larger than 8"x10", or have anything raised or sticky on either surface
5. Photos must be removed from sleeves, envelopes, and albums
6. If you want to keep photos in groups, you may want to put an index card at the beginning of each group with some information and we'll scan it right along with the photos.
7. Orient photos in the direction you would like to view them. We do not rotate the files after we have scanned them (with the exception of 8x10 originals)
8. Photos that do not meet the above criteria will be hand-scanned at the standard scanning priced based on the quantity of images that way.

Shoebox scan technical Specifications: Shoebox scanning is based on 300 dots per inch. This is adequate for making good print copies the same size or up to twice the size of the original photo. Files are saved as individual JPG files on a CD or DVD depending on the quantity of originals. These may or may not play on a DVD player but will always be readable in a computer DVD drive.

Shoebox scans may have visible surface dust. For best results, wipe photos with a soft cloth front AND back before submitting them. If dust is an issue, consider our hand-scanning option which includes removal of 90% of visible dust.

Flat Greeting Cards & Artist Cards (Single Sided)

Price includes envelopes – use of standard templates & up to 3 lines of text

Custom layout including text add \$15 minimum (ask for quote)

Beta	\$35.00	-
(per extra hour after 2 hours)	\$10.00	-
Extra Copies of DVD	\$9.00	-
Video Tape Repair (Repair Only)	\$6.00	New shell \$25.00

Although most VHS tapes are recorded at the 2 hour setting, VCR's were often set to SuperLongPlay (SLP) mode to record broadcast television shows. **This can result in tapes that will run for up to 6 hours** with a mix of home videos and television shows. For these VHS tapes, we will transfer the first two hours and then stop. If you wish to have the entire tape transferred there will be further charges depending on the amount of playback time. There is no way for us to determine the subject matter prior to transfer so these extra charges may be owing on pickup.

Extra playback time is charged at \$10.00 per hour

Please advise us if you wish to include the entire tape, including any broadcast television material.

Hard Drive or Memory Card Camcorders

Hard Drive and Memory Card to DVD (Per 2 Hours of Signal)

Hard Drive (Camcorder must be left with us along with AV Cord, AC Adapter & Cradle (if necessary))	\$35.00
