**Sharpsmart Features**

**WIDE OPENING**
One-hand, one-step deposition of sharps. The optimal access geometry of the lid opening, designed with a wide aperture for large and awkward sharps, minimises disposal related injuries and restricts hand access to the contained waste.

**NO LEAKS**
A fixed liquid seal around the rim of the container lid eliminates leakage of bodily fluids during transport. Container leakage is a common hazard with sharps containers that are not equipped with a leak-proof seal. Neoprene gasket in lid eliminates opportunity for blood or body fluid exposure during post-closure handling and transport.

**CANNOT BE REOPENED**
Side locks are tamper proof when engaged. This safety feature prevents unauthorised access to the container contents. Temporary closure allows safe and easy transport within healthcare facility or community.

**MAXIMUM STRENGTH HARDENED PLASTIC**
The Medical grade hardened plastic casing of the Sharpsmart container is completely impermeable to the contained sharps. The Sharpsmart container has been test-proven to an amazing 500 cycles proving its durability, sterility and re-usability.

**ELIMINATES OVERFILLING**
Once the container is full, the in–built safety tray is activated into an upright closed position to restrict access and overfilling. Passive overfill protection prevents staff from overfilling container and eliminates risk of overfilling injuries.

**Sharpsmart Sharps Containers**

**REGULAR**

**S14**
14 Litre Regular Sharpsmart. Ideal for Patient Room use and lighter sharps volume areas

**Fill Capacity: 6.5 L**
280mm (H) x 395mm (W) x 210mm (D)

**S22**
22 Litre Regular Sharpsmart. Best suited to moderate volume areas

**Fill Capacity: 14.5L**
440mm (H) x 395mm (W) x 210mm (D)

**S32**
32 Litre Regular Sharpsmart. Developed for high volume areas and for use with Cartsmart 1 & floor stand accessories

**Fill Capacity: 23.5L**
610mm (H) x 395mm (W) x 210mm (D)

**ACCESS PLUS**

**S14 AP**
14 Litre Access Plus Sharpsmart. Designed for secure areas where unrestricted deposit of lighter sharps volume is required

**Fill Capacity: 6.5 L**
280mm (H) x 395mm (W) x 210mm (D)

**S22 AP**
22 Litre Access Plus Sharpsmart. Designed for secure areas where unrestricted deposit of long or bulky sharps is required

**Fill Capacity: 14.5L**
440mm (H) x 395mm (W) x 210mm (D)

**S32 AP**
32 Litre Access Plus Sharpsmart. Designed for secure areas with high-volumes of long or bulky sharps

**Fill Capacity: 23.5L**
610mm (H) x 395mm (W) x 210mm (D)

Thousands of people suffer the trauma of a sharps injury each year in South African healthcare facilities.

Daniels began its commitment to South African healthcare workers by forming a joint venture with leading medical waste treatment and disposal company, Compass Medical Waste Services (Pty) Ltd, to deliver a safer sharps management system.
