

Welcome at Benji's,

Where every day is a celebration of good food and good company! The concept of Benji's is inspired by the tropical spheres of Bali, where the western world and the authentic Eastern kitchens came together and transformed the traditional brunch culture by implementing their knowledge about healthy, sustainable, and fresh food.

We too envisioned a café that would break away from the old school Amsterdam brunch scene and offer something fresh and exciting to our guests. So, in 2016 we opened our first urban jungle located in the heart of Amsterdam. The goal was to create a space where people can escape the high paced city life and find themselves in a peaceful green oasis combined with an industrial feel.

The interior features tropical plants, natural wood and steel elements. The menu consists of a carefully sourced selection of food from cuisines all over the world and our drink menu ranges from excellent coffee from Amsterdam roastery LOT61, to daily fresh juices, smoothies, and tropical cocktails for the true breakfast champions.

Enjoy! X Benji
