

Pressure Vessels

We can supply various types of pressure vessel:

- Distillation Columns
- Heat Exchangers
- Pressure and Storage Vessels
- Reactors
- Scrubbers
- Skid Mounted Package Units
- Vortex Mixers

Robert Sanderson and Sons Ltd team of engineers oversee the entire Pressure Vessel manufacturing process, from initial design, to fabrication, testing, finishing and installation.

Capacities:	Up to 4.8 metres diameter, 24 metres in length and 30 Tonnes in weight.
Temperature & Pressure:	To suit client's requirements
Materials:	Stainless steel, carbon steel, Hastelloy and duplex alloys.
