

# Recommended Underlays for SONO Installation

SONO is a high-performance floor, and it requires a high-performance underlay. Specifically, underlays should have a compression strength greater or equal to 45 PSI at 0.5mm compression, and have a maximum thickness of 1.5mm. The list below shows underlays that meet these criteria and are approved for SONO installations.

UNDERLAY	NAME	MANUFACTURER
	Cali All-inOne	Cali Bamboo
	dBarrier Luxury Vinyl	Leggett & Platt, Inc.
	FloorMuffler LVT UltraSeal	Diversified Industries
	Kalm Flooring	IVCUS
	Quietwalk LV100	MP Global Products
	Deltamax	MP Global Products
	Soft and Sound	Smartcore
	SELITBLOC 1.5mm	SELIT
	Floor Comfort LVT	Pak-Lite, Inc.

If you would like to use a different underlay and are unsure as to whether it meets the required specifications please contact customer support at [1.888.255.3412](tel:1.888.255.3412)

**Note:**

For more detailed information on these products, please contact the manufacturer directly.
