

# DRAIN COVERS

JMI Legacy Manufacturing, L.L.C. provides a quality drain cover or “duck pond” to save time, money, and hassle during “hot work” or plant maintenance. Filling the cover with water eliminates the need for sandbags and helps create a vapor seal. This cost-effective option can be easily customized to the size and specification of your needs.

## Standard Specifications:

Length: 46”

Width: 46”

Material: FR vinyl coated polyester

Weight: 18 oz.

Wall Height: 2”

Made with zipper pockets

Reusable

Customization available in varying heights and sizes.

## Common Applications:

Refineries

Chemical Plants

Power Generation Facilities

Construction Sites

and more
