Meta-Rules
Authoritarianism is on the rise across the globe, and many citizens are losing faith in government-run legal systems. When the rule of law can no longer be trusted, what other options are available to the common person?

The solution is Ulex, an open-source legal system that offers a competitive alternative to the government monopoly on civil justice. Ulex gives everyone access to the time-tested wisdom of courts from across the globe and offers a simple, fair resolution process.
