FSG SMART BUILDINGS PARTNERS WITH CHARGEPOINT TO PROVIDE TURNKEY ELECTRIC VEHICLE CHARGING SOLUTIONS NATIONWIDE

Using ChargePoint's line of cutting-edge electric vehicle (EV) charging stations, FSG is able to offer turnkey EV charging solutions, including system design, installation, commissioning, project management and service from a single-source provider.

ROUND ROCK, Texas - [FSG Smart Buildings](#), a division of [Facility Solutions Group](#), a national leader in electrical services, has partnered with [ChargePoint](#), the world's largest electric vehicle (EV) charging network, to provide turnkey electric vehicle (EV) charging solutions to the commercial market, including system design, installation, commissioning, project management and service from a single-source provider.

“ChargePoint’s collaboration with FSG Smart Buildings enables more commercial businesses, residences and fleets to offer an EV charging service that tracks energy consumption, sets charging prices and more,” said Adam Cook, ChargePoint Vice President of Channel Sales. “Electric mobility is quickly becoming a fixture in the world of smart buildings as adoption of electric mobility accelerates. Partnerships like this help businesses seamlessly implement EV charging solutions and empower more commercial businesses with the tools they need to join the charge.”

“FSG is excited to partner with ChargePoint to help bring comprehensive EV charging solutions to commercial spaces nationwide,” said Justin McCullough, FSG Chief Product Officer. “Using ChargePoint’s line of cutting-edge EV charging stations and FSG’s national footprint of electricians and installers, this collaboration truly gives commercial markets the opportunity to join the EV revolution with a seamless, turnkey experience.”

ChargePoint is committed to making it easy for businesses and drivers to go electric since 2007, with the largest EV charging network and most complete set of charging solutions available today. From workplaces to fleet, residential to retail, ChargePoint is creating the new fueling network to move all people and goods on electricity.

FSG is one of the nation's largest providers of electrical services, with over 2,500 dedicated employees across over 30 branches nationwide dedicated to delivering FSG's services and solutions around the clock. In addition, FSG has an extensive network of subcontractors readily available to help with large-scale national system design, deployments and service work for EV charging systems. FSG also offers 24/7 monitoring for all system needs, including expert support, technician dispatch, work order tracking and turnkey facility services.
