

## Conley Group Joins Allana Buick & Bers

**ALLANA BUICK & BERS**  
Making Buildings Perform Better

Allana Buick & Bers and Conley Group are proud to announce the union of two elite pioneers in the building enclosure consulting industry.

Allana Buick & Bers, Inc. (ABBAE) is a leading Architectural Engineering firm with over 32 years of experience. Their expertise and strengths are in all exterior enclosure trades including; curtain wall and glazing; roofing and waterproofing; HVAC and plumbing; and construction/project management.

ABBAE is also one of the most highly regarded construction defect experts in the United States and has performed forensic analysis and expert witness services for both plaintiffs and the defense on over 450 projects.

The new ABBAE/Conley Team unites approximately 200 talented professionals who integrate the knowledge gained from the successful delivery of over 12,000 projects worldwide over the past 32 years. We share common cultures, values, and commitment to Client service and project excellence. The completed construction value of our projects totals over \$20 Billion in building envelope systems construction.

Our combined platform offers our Clients an enhanced national response delivered from our 16 offices with a comprehensive menu of professional architectural, engineering, and consulting services which include:

- Complete Building Enclosure Design and Consulting
- Building Enclosure Commissioning
- Mechanical Engineering Services
- Structural Engineering Services
- Forensic Investigation Services
- Expert Witness Litigation Support
- Building Enclosure Field Quality Control Testing
- Building Enclosure Asset Management

We are excited about the additional resources and expertise that can help enhance our offerings covering geographic areas like the West Coast and Hawaii that Conley Group does not currently serve.

Our Team is fully poised and dedicated to cultivating our relationships with our current and future clients. We look forward to the opportunity to work with your team to solve your building enclosure needs.
