## Benefits of Draft Wines

Wines on tap are an emerging trend, especially in wine country. The wine keg eliminates the spoilage caused by oxygen because when wine is withdrawn from a stainless steel keg, it is replaced by nitrogen. Oxygen does not come in contact with the wine, extending its "life".

## Eco Friendly

The tap system eliminates the need for glass bottles, labeling and cardboard cases. Transportation costs are reduced, too. Norwood's alone estimate to reduce glass bottle waste by 1,600 bottles annually by switching some of our most popular By the Glass Wine options to draft.
