DERMAFLEECE MASKS are an extensive range of superior active substance masks manufactured from high-quality collagen of extraordinary purity. The native, soluble collagen is bovine in origin and is treated in a special production process to form a biomatrix. As soon as the biomatrix is moistened, it behaves in the same manner as a second skin. Supple and velvety, it adapts to all facial contours.

Thanks to their properties, DERMA FLEECE MASKS possess a special dual function: they are both an active substance and an active substance carrier at the same time. Besides their outstanding hydration characteristics, the fleece masks also offer an impressive anti-irritation effect. This guarantees reliable treatment success for all skin types and any skin condition in the beauty salon.

PRODUCTION PROCESS

Lyophilization (freeze drying) is used to transform collagen fibers into water-free structures and refine them to form a microporous biomatrix which resembles a sponge. Prior to freeze drying, the biomatrix is additionally enriched with cosmetic active substances (e.g. aloe vera, caviar, vitamins, etc.) by means of a special process. Only the subsequent supply of water activates active substance release on application.

Depending on the active substances which they contain, DERMAFLEECE MASKS can be used for specific skin types. They offer outstandingly high microbiological, physical and chemical stability, particularly in comparison with other galenical systems (e.g. emulsions).

SAFETY AND TOLERABILITY

The source substance of the DERMAFLEECE MASKS is bovine skin. To ensure preventative health protection and end consumer safety, raw substances of animal origin which are used in the cosmetics sector are subject to extremely stringent safety requirements. For example, the manufacturer certifies that the raw materials which are used originate solely from German production facilities and are guaranteed to be free of BSE pathogens.

DERMAFLEECE MASKS contain no chemical networking agents, preservatives or perfume oils. This results in outstanding skin tolerability even in the case of hypersensitive skin. The skin's moisture content is optimally balanced, evaporation of the skin's native moisture is effectively combated and the horny layer's elastic properties are enhanced.

PROFESSIONAL APPLICATION OF DERMAFLEECE MASKS

DERMAFLEECE MASKS make each cosmetic treatment diversified, varied and effective. Particularly in combination with an ampoule preparation from the AMPOULES series, these unusual masks are therefore an unbeatable treatment unit for special care in the beauty salon.

DERMAFLEECE MASKS

- **Stimulation of new cell formation**
- **Increases the skin's suppleness**
- **Moisturizing and moisture retaining**
- **Skin-smoothing**
- **Reduces wrinkles caused by dryness**
- **Increases the tissue's resilience and elasticity**

Collagen Pure

FLEECE MASK FOR ALL SKIN TYPES

The Collagen Pure fleece mask is outstandingly suitable both for restoring lost moisture to the skin and for improving and firming the structure of the skin tissue.

The skin's hydration is optimized thanks to the high moisture binding capacity of the collagen. The skin therefore regains added resilience and suppleness, and is left looking fresher and more recuperated.

ACTIVE SUBSTANCES

- **Collagen:** Moisturizing and moisture-binding, lifts the skin

Application

Following skin cleansing and the application of an active substance concentrate, place Collagen Pure onto the non-oily area of skin which is to be treated, preferably moisten with Mask Activator and allow to work in for approx. 20-30 minutes. Finally, peel the mask off in one piece. Gently press in any moisture remaining on the surface of the skin.

The treatment can be continued with a massage cream, cream mask and/or concluding care.

Note: Always store Collagen Pure in the sealed packaging at room temperature; protect against moisture and direct exposure to sunlight.

Tip: Ideally suitable for treating the backs of the hands.

DERMAFLEECE MASKS

- **Stimulation of new cell formation**
- **Particularly suitable for sensitive, irritated skin**
- **Particularly well-tolerated by the skin**
- **Increases the skin's suppleness**
- **Moisturizing and moisture retaining**
- **Skin-smoothing**
- **Reduces wrinkles caused by dryness**
- **Increases the tissue's resilience and elasticity**
- **Has a soothing effect**

Collagen Aloe Vera

FLEECE MASK FOR SENSITIVE SKIN

Ideal for sensitive, irritated skin. This skin condition may occur in the case of both dry and rather more oily skin types. In particular, skin which has a tendency to develop acne often displays a certain readiness to become inflamed and requires plenty of moisture.

Collagen Aloe Vera has a soothing and balancing effect.

The skin's hydration is optimized thanks to the high moisture binding capacity of the collagen. Moisture deficits are balanced out, the skin is guarded against dehydration and the formation of wrinkles caused by dryness is effectively combated. The skin regains added resilience and suppleness and is left looking more recuperated and fresher.

Application

Following skin cleansing and the application of an active substance concentrate, place Collagen Aloe Vera onto the non-oily area of skin which is to be treated, preferably moisten with Mask Activator and allow to work in for approx. 20-30 minutes. Finally, peel the mask off in one piece. Gently press in any moisture remaining on the surface of the skin.

The treatment can be continued with a massage cream, cream mask and/or concluding care.

Note: Always store Collagen Aloe Vera in the sealed packaging at room temperature; protect against moisture and direct exposure to sunlight.

ACTIVE SUBSTANCES

- **Collagen:** Moisturizing and moisture-binding, lifts the skin
- **Aloe vera:** Hydrates and calms the skin, soothing

DERMAFLEECE MASKS

- **Particularly well-tolerated by the skin**
- **Increases the skin's suppleness**
- **Lipid-free**
- **Moisturizing and moisture retaining**
- **Skin-smoothing**
- **Increases the tissue's resilience and elasticity**

Collagen Allantoin & Panthenol

FLEECE MASK FOR DEMANDING SKIN

Ideal in the case of light-damaged and stressed skin. This skin condition is frequently described as dry and lipid-deficient. The skin profile reveals a conspicuous loss of resilience, is unevenly hornified and has a tendency to form wrinkles prematurely.

Collagen Allantoin & Panthenol revitalizes demanding skin and effectively balances out moisture deficits.

ACTIVE SUBSTANCES

- **Allantoin:** Restructures, has a calming and soothing effect, makes rough and chapped skin smooth and supple
- **Collagen:** Moisturizing and moisture-binding, lifts the skin
- **Panthenol:** Improves the skin's regeneration activity, possesses soothing properties, leaves the skin feeling velvety and soft

Application

Following skin cleansing and the application of an active substance concentrate, place Collagen Allantoin & Panthenol onto the non-oily area of skin which is to be treated, preferably moisten with Mask Activator and allow to work in for approx. 20-30 minutes. Finally, peel the mask off in one piece. Gently press in any moisture remaining on the surface of the skin.

The treatment can be continued with a massage cream, cream mask and/or concluding care.

Note: Always store Collagen Allantoin & Panthenol in the sealed packaging at room temperature; protect against moisture and direct exposure to sunlight.

Tip: Ideal for treating areas of the body which are exposed to light, such as e.g. the neckline and the backs of the hands.

DERMAFLEECE MASKS

- **Effectively protects the skin from premature aging**
- **Proven to smooth and firm the skin**
- **Ensures an even, homogenous complexion through gentle lightening**
- **Gives skin a revitalized, balanced appearance**
- **Long-lasting effects due to retardant effect**

Collagen Vitamin C

FLEECE MASK FOR DEMANDING SKIN

Ideal for skin with sun damage, premature aging and pigment problems.

Smoking, stress and harmful environmental influences can cause premature, accelerated aging of the skin. The skin seems tired and dull, loses elasticity, and tends to form wrinkles and fine lines and toward irregular pigmentation.

Vitamin C can make a valuable contribution to fighting the signs of premature aging of the skin. It has three main functions: neutralizing free radicals, accelerating the skin's natural synthesis of collagen and reducing the visibility of pigment spots.

The damage free radicals can do is something we see every morning when we look in the mirror. They accelerate the skin's aging process, attack protective cell membranes, and change the structure of the skin's proteins. Vitamin C, an antioxidant, is able to interrupt chain reactions involving free radicals. It traps them, neutralizing their effects. It can also accelerate the skin's natural synthesis of collagen, ensuring that skin is firmer. But vitamin C can do even more. It also reduces the visibility of pigment spots by inhibiting tyrosinase, the key enzyme in melanin synthesis.

But pure vitamin C is not very stable. To achieve the highest possible efficacy for DERMAFLEECE Collagen Vitamin C, this fleece mask contains ascorbyl glucoside, a vitamin C derivative in stabilized form. It is released during treatment and is gradually split into glucose and active vitamin C by the skin's natural enzymes. The delayed release of the vitamin C achieves a retardant effect that ensures long-lasting nourishment of the skin.

DERMAFLEECE Collagen Vitamin C offers optimum protection for the skin from free radicals and premature aging. At the same time, the moisture content of the epidermis is significantly increased, noticeably smoothing the surface structure. The result is smoother, fresher skin with revitalized radiance.

Application

Cleanse the area of the skin to be treated, apply an active concentrate, and ensure that the skin is oil-free. Place Collagen Vitamin C on the skin and moisten, preferably with Mask Activator. Leave on for approximately 20 to 30 minutes to take effect, then remove the mask in one piece. Gently press any moisture remaining on the surface of the skin into the skin to absorb.

Treatment can be continued with a massage cream, cream mask and/or finishing product.

Note: Always store Collagen Vitamin C in a closed package at room temperature; protect from moisture and direct sunlight.

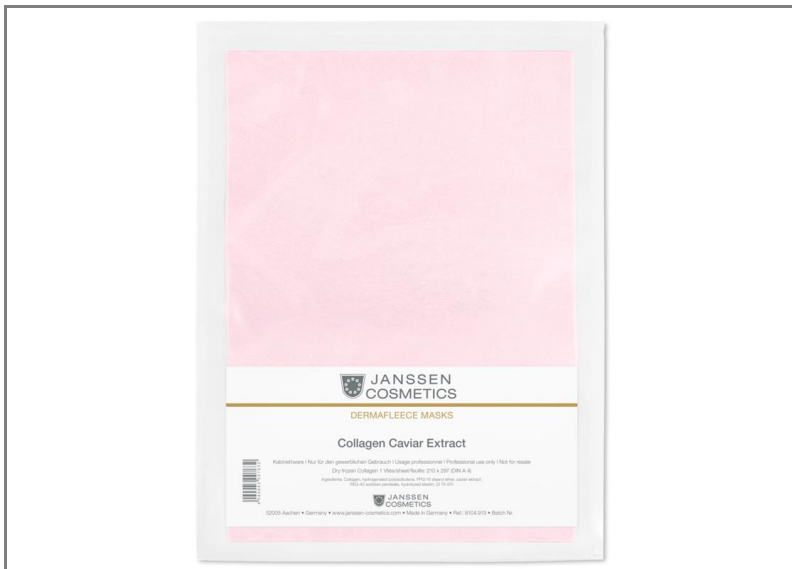

ACTIVE SUBSTANCES

- **Collagen:** Moisturizing and moisture-binding, lifts the skin
- **Ascorbyl (vitamin C) glucoside:** Neutralizes free radicals, supports the skin's natural collagen synthesis and inhibits formation of melanin

DERMAFLEECE MASKS

- **The formation of new collagen fibers is promoted**
- **Moisturizing and moisture retaining**
- **Inhibits destructive, harmful enzymes**
- **Strengthens the skin's native resilience**
- **Visible improvement of the skin structure**
- **Improvement in the resilience, elasticity and suppleness of the skin tissue**

Collagen Caviar Extract

FLEECE MASK FOR SKIN REGENERATION

Ideal for dull, limp and lifeless skin which tends to react sensitively at the same time. In addition to wrinkles caused by dryness, the skin often appears tired and lifeless.

During the aging process, destructive enzymes (so-called collagenases) act on the skin's connective tissue. These enzymes literally destroy the skin's collagen network. The result is a significant loss of skin resilience and elasticity. The lack of tissue tone is also responsible for the fact that the facial contours appear tired and lifeless.

The Collagen Caviar Extract fleece mask has a moisturizing effect, protects the collagen and elastic fibers and clarifies the facial contours, leaving the skin looking velvety. This active substance additive, obtained from the water-soluble extract of caviar, has a high content of amino acids and sugar compounds. Both are essential constituents of an intact skin metabolism.

Application

Following skin cleansing and the application of an active substance concentrate, place Collagen Caviar Extract onto the non-oily area of skin which is to be treated, preferably moisten with Mask Activator and allow to work in for approx. 20-30 minutes. Finally, peel the mask off in one piece. Gently press in any moisture remaining on the surface of the skin.

The treatment can be continued with a massage cream, cream mask and/or concluding care.

Note: Always store Collagen Caviar Extract in the sealed packaging at room temperature; protect against moisture and direct exposure to sunlight.

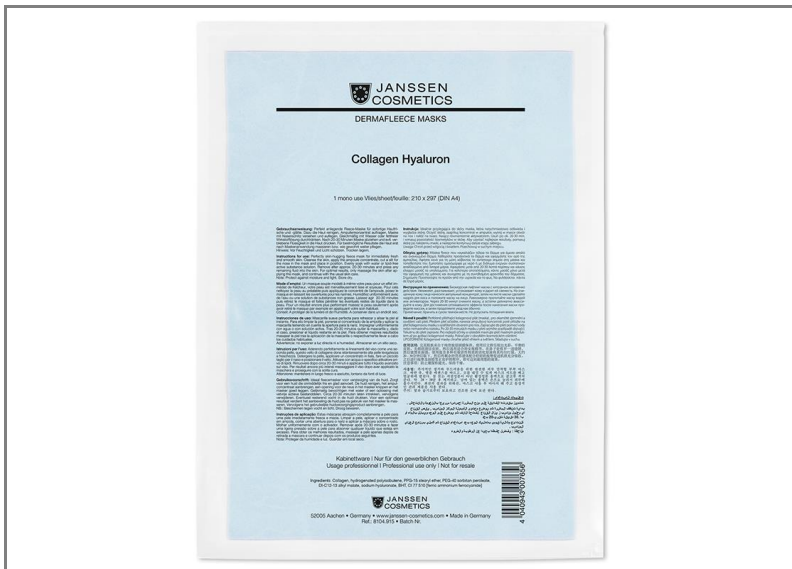

ACTIVE SUBSTANCES

- **Collagen:** Moisturizing and moisture-binding, lifts the skin
- **Caviar extract:** Active substance of biomarine origin, stimulates the formation of new cells, ideal radical scavenger, promotes the skin's microcirculation

DERMAFLEECE MASKS

- **Highly effective mask with immediate effects**
- **Intensively moisturizing**
- **Smooths the skin**
- **Reduces dryness lines**
- **Leaves skin with a smooth, fresh complexion**
- **Enhances tissue firmness and elasticity**

Collagen Hyaluron

FLEECE MASK FOR DRY SKIN

Ideal for dry skin lacking in moisture – fast and effective.

When hyaluronic acid meets high-purity collagen, the result is the best basis for moisturizing dry skin and giving it a smooth, radiant appearance.

Hyaluronic acid and collagen have been used as active ingredients in cosmetic applications for decades. And with good reason; both are prized as excellent moisturizers and skin-firming agents.

Hyaluronic acid is a polysaccharide found naturally in the skin, where it supports the structural proteins collagen and elastin, binds water and lends the skin elasticity and suppleness. The fascinating thing about hyaluronic acid is that it can store huge quantities of water, soaking it up like a sponge and growing to many times its original size. This allows it to plump up the intercellular tissue from the inside. With increasing age, however, the skin's stores of hyaluronic acid decrease – the skin becomes less elastic and dries out, and wrinkles and fine lines form.

DERMAFLEECE Collagen Hyaluron counteracts the moisture deficiency of dry skin. This intense moisturizer and wrinkle filler instantly smooths and plumps up the skin. The skin-smoothing effect is visible and noticeable to the touch after as little as one application. Dryness lines are visibly reduced, and the skin takes on a firmer, more toned and fresher appearance.

Application

Cleanse the area of the skin to be treated, apply an active concentrate, and ensure that the skin is oil-free. Place Collagen Hyaluron on the skin and moisten, preferably with Mask Activator. Leave on for approximately 20 to 30 minutes to take effect, then remove the mask in one piece. Gently press any moisture remaining on the surface of the skin into the skin to absorb.

Treatment can be continued with a massage cream, cream mask and/or finishing product.

Note: Always store Collagen Hyaluron in a closed package at room temperature; protect from moisture and direct sunlight.

ACTIVE SUBSTANCES

- **Collagen:** Moisturizing, binds moisture; firms the skin
- **Hyaluronic acid:** Intensively moisturizing, binds moisture intensively; plumps up the intercellular tissue; supports skin's natural regeneration process

DERMAFLEECE MASKS

- **Gentle and effective**
- **Removes dead skin cells, allows new ones to reach the surface faster**
- **Smooths the surface of the skin, making it more even and refined**
- **Outstanding deep cleansing for the skin**
- **Moisturizing**
- **Reduces dryness lines**
- **Gives the skin a silky, matte and even appearance**
- **Reduces skin impurities**

Collagen AHA Green Tea

FLEECE MASKE FOR OILY, IMPURE SKIN

Ideal for skin with a tendency toward impurities, excessive cornification, hyperpigmentation and fine lines or creases.

Alpha-hydroxy acids, also known as AHAs or fruit acids, work like a chemical peel. The stratum corneum, or horny layer, of the skin, which is made up of dead skin cells, is softened and finally removed. New cells can now reach the surface of the skin faster while active ingredients absorb better into the skin. In addition, dryness lines are reduced, pigment irregularities are balanced out, and pore size is refined.

Green tea extract provides ideal support for the effects of fruit acids. The extract has an antioxidant and anti-irritant effect. It harmonizes the complexion, thereby ensuring a balanced appearance.

Collagen AHA Green Tea fleece mask smooths the skin and cleanses deep down to the pores, reducing pigmentation and age spots and stimulating skin cell renewal. The surface structure of the skin seems more youthful, fresher and more even. Unlike conventional peeling products, DERMAFLEECE Collagen AHA Green Tea can be used as often as three times weekly for skin with severe excess cornification.

Application

Cleanse the area of the skin to be treated, apply an active concentrate, and ensure that the skin is oil-free. Place Collagen AHA Green Tea on the skin and moisten, preferably with Mask Activator. Leave on for approximately 20 to 30 minutes to take effect, then remove the mask in one piece. Gently press any moisture remaining on the surface of the skin into the skin to absorb.

Treatment can be continued with a massage cream, cream mask and/or finishing product.

Note: Always store Collagen AHA Green Tea in a closed package at room temperature; protect from moisture and direct sunlight.

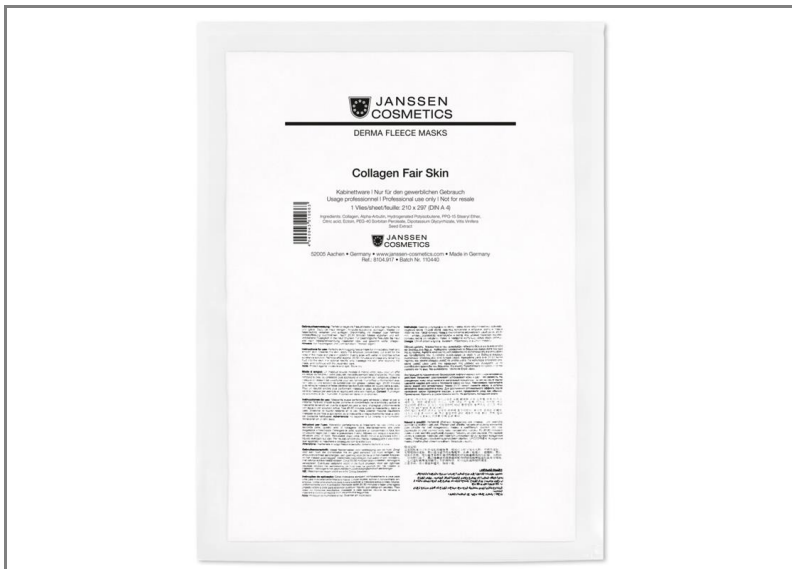

ACTIVE SUBSTANCES

- **Collagen:** Moisturizing, binds moisture; firms the skin
- **AHA:** AHAs (glycolic acid, citric acid and lactic acid) support the skin's natural process of shedding dead cells and accelerate cell renewal
- **Green tea:** Green tea is rich in antioxidants, providing protection from free radicals. Green tea also contains tannins, which have an astringent and anti-inflammatory effect

DERMAFLEECE MASKS

- **Actively combats dark spots on the skin**
- **Supports general skin brightening**
- **Promotes an even complexion**
- **Protects the skin cells**
- **Reduces wrinkles caused by dryness**
- **Moisturizing and moisture retaining**

Collagen Fair Skin

FLEECE MASK FOR FAIR SKIN

As we age, pigment formation (melanogenesis) increases - irrespective of whether this is due to aging or caused by medication or UV. Dark discoloration and irregular pigmentation are always spurned throughout all cultures.

With its effective brightening concept, Collagen Fair Skin offers an appropriate countermeasure. Collagen Fair Skin's active substances support skin brightening and simultaneously mobilize the defensive system. This enables damage caused by stress factors such as UV light, dryness and heat to be effectively prevented and premature light-induced skin aging to be avoided. The high content of active moisture retention substances also effectively balances out the moisture deficit of hyperpigmented and light-stressed skin.

Application

Following skin cleansing and the application of an active substance concentrate, place Collagen Fair Skin onto the non-oily area of skin which is to be treated, preferably moisten with Mask Activator and allow to work in for approx. 20-30 minutes. Finally, peel the mask off in one piece. Gently press in any moisture remaining on the surface of the skin.

The treatment can be continued with a massage cream, cream mask and/or concluding care.

Note: Always store Collagen Fair Skin in the sealed packaging at room temperature; protect against moisture and direct exposure to sunlight.

Tip: To provide support and subsequent to skin-brightening treatment, always ensure sufficient UV protection (e.g. with Face Guard Advanced).

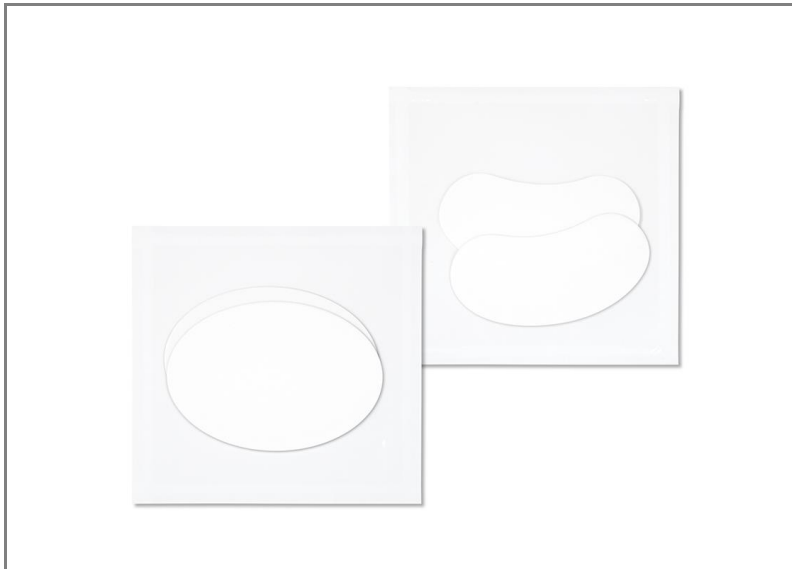

ACTIVE SUBSTANCES

- **Collagen:** Moisturizing and moisture-binding, lifts the skin
- **Alpha arbutin:** Highly-effective, nature-identical active substance; inhibits melanin synthesis in the epidermis by interrupting the complex, multistage process leading to the formation of melanin pigment
- **Citric acid:** AHA fruit acid with a gentle peeling and skin-brightening effect; supports active substance penetration and promotes a fine skin structure
- **Liquorice root extract:** Anti-inflammatory and calming; reduces the harmful effect of UV radiation on the skin
- **Ectoin®:** Biotechnologically derived substance from microorganisms; offers active cell protection and increases resilience against environmentally-related stress factors (e.g. heat, dryness or strong sunlight)
- **Grape seed extract:** Antioxidative property due to its particularly high flavonoid and polyphenol content; serves to protect the cells against free radicals

DERMAFLEECE MASKS

- Refreshes
- Firms the epidermis in the eye area
- Moisturizing and moisture retaining
- Reduces wrinkles caused by dryness
- Increases the tissue's resilience and elasticity
- Supports the skin's native regeneration process
- Leaves the eye zone looking velvety
- Banishes signs of tiredness

Collagen Eye

LYOPHILIZED FLEECE MASK CONSISTING OF PURE, NATIVE COLLAGEN

Ideal for specific treatment of the eye area. "Eye lifting" for the beauty salon. Premature wrinkles in the eye area are effectively combated. Even the sensitive eye area will love this treatment, as Collagen Eye fleece masks are lipid-free and contain no preservatives, colorants or fragrances.

The Collagen Eye fleece masks refresh and lift the epidermis in the eye area, thereby leaving it looking younger.

The Collagen Eye fleece masks are cut to size specifically for the eye area.

Choose from the 2 possible precut forms depending on the area to be treated:

- Collagen Eye Lid Mask (kidney-shaped precut form, ideal for "crows" feet), (Ref. 8106.901)
- Collagen Eye Contour Pad (oval precut form for the entire eye; also ideal for the lip contours), (Ref. 8109.901)

Application

Following skin cleansing and the application of an active substance concentrate, place Collagen Eye onto the non-oily area of skin which is to be treated, preferably moisten with Mask Activator and allow to work in for approx. 20-30 minutes. Finally, peel the mask off in one piece. Gently press in any moisture remaining on the surface of the skin.

The treatment can be continued with a massage cream, cream mask and/or concluding care.

Note: Always store Collagen Eye in the sealed packaging at room temperature; protect against moisture and direct exposure to sunlight.

Tip: Ideal in combination with the Lifting Effect ampoule.

ACTIVE SUBSTANCES

- **Collagen:** Moisturizing and moisture-binding, lifts the skin
