

# SUPERFRUIT FLUID

## FRUIT POWER AMPOULE WITH VITAMIN C

This fruity active ingredient ampoule with stabilized Vitamin C (Ascorbyl Glucoside) and Superfruit Complex has been developed to reduce fine lines and wrinkles and make the skin tone glow.

Ascorbyl Glucoside is a water-soluble, stable vitamin C derivative. It offers the same properties as vitamin C - anti-oxidant, skin-lightening, stimulates collagen synthesis and reduces wrinkles.

Fruit extracts from blueberry, kiwi, lime, goji berry and pomegranate are the ideal supplement to ascorbyl glucosides. The superfruits provide the skin with even more vitamins, polysaccharides, fruit acids and minerals for a fresh, even radiance.

In ampoule form, the pleasantly scented power formula is particularly stable and effective. It refreshes and invigorates the skin immediately and visibly, while at the same time enhancing the effect of Vitaforce C Cream.

### ACTIVE SUBSTANCE

- **Ascorbyl glucosides:** Stabilized vitamin C derivative, stabilized against premature decomposition by the binding of a glucose molecule; penetrates the horny layer and is enzymatically cleaved to pure vitamin C; excellent antioxidant, increases collagen production, lightens the skin, reduces fine lines and wrinkles, protects against light-induced skin aging
- **Blueberry:** Rich in tannins, fruit acids, polysaccharides and bioflavonoids; has an anti-oxidative effect
- **Kiwi:** Rich in vitamin C, polysaccharides fruit acids, toning
- **Lime:** Contains vitamin C, astringent and refreshing
- **Goji Berry:** Contains vitamins (C- and B-group), minerals, amino acids, phenols and polysaccharides; anti-oxidative
- **Pomegranate:** Contains a high content of polyphenols, protects the skin from free radical damage
- **Glycerin:** Moisturizer; promotes the elasticity of the skin

### HOME CARE APPLICATION:

Gently distribute Superfruit Fluid over cleansed skin. To do this, break off the top of the ampoule, using a paper tissue to protect your hands, and pour the entire content into the palm of your hand. Then distribute evenly over the face and neck and press in gently. The apply the Vitaforce C Cream

### BENEFITS:

- Supports skin regeneration
- Reduces lines and wrinkles
- Improves collagen synthesis
- Moisturizing
- Reduces age spots
- Gives new vitality and freshness
- Strengthens the effect of Vitaforce C Cream

# VITAFORCE C CREAM

## VITAMIN C CREAM

Highly-effective active substance cream for treating the first signs of skin aging: wrinkles caused by dryness and fine lines. Vitaforce C Cream offers reliable assistance. The combination of low- and high-molecular hyaluronic acid ensures noticeable skin smoothness and long-lasting improvement of the moisture content in the upper layers of the epidermis.

Vitamin C phosphate (a stabilized form of vitamin C, which is unstable in water, for use in cosmetic products) penetrates deep into the skin tissue, where it is transformed into active vitamin C. Focus is placed on three effects:

1. In the dermis, vitamin C stimulates the synthesis of new collagen and therefore slows down skin aging. Externally, this is noticeable due to improved skin smoothness.
2. UV radiation and tobacco smoke produce high quantities of free radicals. Vitamin C is an extremely powerful antioxidant which protects the skin against the destructive effect of the free radicals and therefore prevents skin aging.
3. Vitamin C inhibits synthesis of the skin's native pigment, melanin. This brightens the skin's color and improves its radiance. Age spots are reduced and the skin is left looking more even and therefore younger.

A refreshing and reviving extract of lemons supports skin brightening and improves the skin's radiance. Vitamin E acetate (the stabilized form of vitamin E) is transformed into the powerful antioxidant vitamin E (tocopherol) in the skin. It particularly protects the cell membranes against free radicals.

### ACTIVE SUBSTANCE

- **Vitamin C phosphate:** Stimulates the synthesis of collagen fibers, improves skin smoothness, protects against free radicals, inhibits melanin formation
- **Vitamin E acetate:** Protects cell membranes against free radicals
- **Hyaluronic acid (long- and short-chain):** Immediately noticeable skin smoothing and increased skin moisture; reduces wrinkles caused by dryness
- **Lemon extract:** Refreshing and toning

### HOME CARE APPLICATION:

Distribute over the cleansed face in the morning and/or evening.

***Tip:** Vitaforce C Skin Complex is the optimal addition. When applied in combination with Vitaforce C Cream, demanding skin is provided with an unbeatable dual care set for smooth, even skin with improved radiance.*

***Recommendation:** Face Guard Advanced combats premature skin aging with effective light protection. To achieve this, always apply the extremely light lotion beneath Vitaforce C Cream during the day.*

### BENEFITS:

- For youthful, smooth and more even skin
- Stimulates collagen and elastin production
- Neutralizes free radicals
- Improves the radiance of demanding skin
- Refreshing effect, pleasant fragrance
- Protects against premature skin aging
