Wrinkles, dull skin, loss of elasticity or pigment spots – at some point, it comes to us all. MATURE SKIN from JANSSEN COSMETICS is an innovative anti-ageing product series with powerful active ingredients which have been especially developed for the needs of more mature skin. The products reactivate the skin's natural renewal processes and cause small imperfections to optically disappear.

With the combined effects of natural active ingredients and innovative technologies, MATURE SKIN has not disregarded any of the signs of ageing skin. The new care product range contains the Cellular Regeneration Complex of red clover extract and the fermented black tea, Kombucha. Red clover extract is rich in isoflavones; it moisturises and regenerates the skin balance. Kombucha, the "fungus of long life" improves the radiance and bestows a rosier complexion. Furthermore, new research shows that Kombucha actually stimulates the development and maturing of fat cells in the skin, thus having a natural, smoothing lipo-filling effect.

Tried-and-tested active ingredients, such as short and long-chained hyaluronic acid, vitamins A, C and E, skin-protective alpine rose and vitalising silk acacia complete this innovative anti-ageing concept.

MATURE SKIN products impress not just because of their perfect composition, but also due to their unique textures and subtle scents. The skin appears firmer, smoother, more even and has a young, fresh radiance.

MATURE SKIN

- **Unique cleansing experience**
- **innovative texture for maximum make-up removal, yet also suitable for sensitive skin**
- **Provides and maintains moisture**
- **Leaves skin feeling silky**
- **Suitable for sensitive skin**
- **Multiple application options**

Multi Action Cleansing Balm

LUXURIOUS CLEANSING BALM

Multi Action Cleansing Balm is an innovative face-cleansing balm for mature skin whose texture actually changes during application. The silky gentle cream-gel texture transforms into a rich oil when massaged into dry skin and, when rinsed off with water, then becomes a milky emulsion. It gently and thoroughly frees the skin of make-up, sebum and particles of dirt whilst also providing optimum care for the skin. The subtly scented formula with Murumuru Butter, apricot kernel oil and evening primrose oil strengthens the skin barrier and protects it from drying-out. An extract from raspberry stem cells + vitamin E has an antioxidant effect – also ideal for very sensitive skin.

The result: your skin will feel wonderfully soft and silky, and its receptive capacity for subsequent care products will be improved.

ACTIVE SUBSTANCES

- **Murumuru Butter:** is extracted from the seeds of the reddish-orange fruits of the Murumuru palm (*Astrocaryum murumuru*) which is native to the Amazon. The plant butter has a unique composition of essential fatty acids and forms a protective film on the skin
- **Apricot Kernel Oil:** is nourishing oil from the apricot kernels (*Prunus armeniaca*). Rich in unsaturated fatty acids and very easy on the skin; it also protects the skin from drying out
- **Evening Primrose Oil:** contains a very high percentage of gamma-linolenic acid which strengthens the barrier function of the skin
- **Raspberry Stem Cell Extract:** oil-soluble extract from the stem cells of raspberries. Contains a high proportion of carotenoids, lipids, phenolic acid and ellagitannin thanks to the unique stem cell technology. These active substances have particular antioxidant and moisturising properties
- **Vitamin E:** is an antioxidant

Home care application

Apply and gently massage-in a hazelnut-size quantity of the balm to any dry skin on your face, neck and décolleté to remove make-up. Moisten your fingers and massage the skin again. Finally, remove using warm water.

***Tip:** Multi Action Cleansing Balm combines four application possibilities in one product; it is suitable as a cleansing balm, make-up remover, moisturising mask and as an SOS balm for areas of particularly dry skin.*

***As a mask:** Apply to cleansed skin and allow it to take effect for 5-10 minutes. Massage with circular movements and then rinse off with plenty of warm water. The mask can also be applied overnight. For this, any excess is dabbed off with a soft cloth, and the mask not washed off with warm water until the next morning.*

***As an SOS balm:** In the winter, or if your skin is feeling particularly dry, a small amount of the balm is applied and gently massaged into the dry skin. Gently dab away any surplus balm with a soft cloth.*

MATURE SKIN

- Gentle, oil-based cleansing
- Leaves the skin feeling supple
- Also suitable for sensitive skin
- No preservatives

Home care application

Apply Luxury Oil Cleanser to the skin, spread it over face, emulsify with moist fingers and remove with lukewarm water. Then rinse the skin with Micellar Skin Tonic.

Luxury Oil Cleanser

LUXURY CLEANSING OIL

Luxury Oil Cleanser is a pleasant, light cleansing oil for dry, mature skin. The luxurious oil has a golden shimmer and cleanses the skin quickly, gently and thoroughly without impairing its natural protective barrier.

It is ideal for dissolving and removing dust and dirt particles as well as make-up and can be easily rinsed off with water. Thanks to its hydrophilic formula, it achieves a perfect cleansing effect and effortlessly removes even waterproof eye make-up in one easy cleansing process.

Luxury Oil Cleanser contains precious natural oils that nurture the skin intensively - right from the cleansing process. Gold of Pleasure Oil is rich in essential omega fatty acids and supports the skin's protective barrier. Calendula extract reduces irritation and soothes stressed skin.

The result? Clean and soft skin which is free of any feeling of tension. The perfect solution for a gentle cleansing routine!

ACTIVE SUBSTANCES

- **Gold of Pleasure Oil:** "Gold of pleasure" (INCI: Camelina Sativa Oil) is the English name for golden yellow oil, which is known to us as camelina oil. It is rich in unsaturated omega-3 and omega-6 fatty acids, smooths the skin and leaves it feeling supple
- **Oil-soluble calendula:** Contains the lipophilic ingredients and aromas of calendula blossoms (flavonoids, carotenoids); nourishes dry, rough and flaky skin
- **Coconut fatty acid glycerol ester:** Hydrophilic oil of vegetable origin; is used as an emulsifier, combines water and fat

MATURE SKIN

- Gently removes residues from cleansing products
- Alcohol-free
- Stabilises and regenerates the skin's acid protective layer
- Moisturises
- Refreshing and vitalising
- Improves the skin's receptive capacity for subsequent care products

☰ Micellar Skin Tonic

MILD FACIAL TONIC ON A MICELLIC BASIS

The alcohol-free facial tonic, on an innovative micelle basis, is particularly suitable for mature skin. With the aid of micelle technology, the last traces of make-up and cleansing products are removed particularly gently and thoroughly.

Micelle technology is the characteristic of surfactants to spherically encapsulate dirt particles and then gently remove them from the skin. At the same time, saccharide isomerates and long-chain hyaluronic acid provide the skin with moisture.

Micellar Skin Tonic gives mature skin a soothing sensation of gentle freshness and suppleness. In this way, mature skin is optimally prepared for the subsequent care.

Home care application

Apply Micellar Skin Tonic in the morning and in the evening after cleansing. Apply Micellar Skin Tonic to a cotton pad and then stroke gently over your face, neck and décolleté – your usual care routine should follow.

ACTIVE SUBSTANCES

- **Saccharide Isomerates:** Moisture-holding substance obtained from natural sugars; it binds firmly to the skin's keratin and, thanks to its good water-binding properties, allows the optimum moisture penetration of the skin
- **Long-Chained Hyaluronic Acid:** Moisturising and binding

MATURE SKIN

- **Free of oils**
- **Smooth skin**
- **Ideal preparation for intensive skin care**
- **Clear, refreshing gel**
- **Peeling without a mechanical irritant**
- **Absorbs quickly into the skin**

■ Skin Refining Enzyme Peel

ENZYME PEELING

The gentle removal of a possibly larger quantity of hard skin smooths the skin's surface and provides an ideal start for active ingredient-intensive care. The clear and delicately flowing Enzyme Peel gel is especially useful.

Skin Refining Enzyme Peel contains subtilisin - a specific, bio-technologically manufactured protease which can break down proteins. The enzyme is provided by the manufacturer in a water/glycerin solution. Extensive studies by the manufacturer show that the enzyme has sufficient long-term stability in cosmetic products. It is only on the surface of the skin that the enzymes assume their activity: they remove the binding material between the hard skin cells in the same way as the skin's own enzymes. In this respect, it actually imitates the skin's own metabolic process.

The biochemical mechanism of cell dissolution leads to an increased cell regeneration and, ultimately, to a smoother skin structure. In this sense, biological peeling is perceived to have an antifungal effect.

Apply Skin Refining Enzyme Peel with a fan-shaped brush onto the cleansed skin of the face, neck and décolleté. Leave it to work for about 5-10 minutes and then carefully peel off with the help of compresses. If the skin condition allows it, a gentle brushing massage is a good idea. If necessary, the removal of skin impurities can then be carried out. As a rule, comedones can be gently pushed out of the follicle.

Home care application

Apply Skin Refining Enzyme Peel to cleansed skin in the evenings once or twice a week. Allow it to work overnight. Do not wash off! For the care of the regenerated skin, please use the appropriate care cream on top. The next morning, cleanse and care for the skin as usual.

Note: Any use of peeling makes the skin sensitive to UV light. Please therefore ensure that you have adequate UV protection and that you apply Face Guard Advanced during the day. Only then do you apply the skin care cream for skin regeneration as usual.

ACTIVE SUBSTANCES

- **Subtilisin:** Biotechnologically-derived enzyme, dissolves protein compounds between the top skin cells of the stratum corneum, promotes the peeling process of the epidermis. The enzyme is provided by the manufacturer in a water/glycerin solution. Extensive studies by the manufacturer show that the enzyme has sufficient long-term stability in cosmetic products

MATURE SKIN

- Smooths the skin
- Provides and maintains moisture
- Visible improvement in the skin's structure
- Increases the skin's tension and elasticity
- Improves radiance
- Ideal foundation for make-up as easy to apply

Perfect Lift Cream

FIRMING ANTI-AGEING SKIN CARE

Perfect Lift Cream with Cellular Regeneration Complex is the perfect facial care for improved skin tension and a fresher complexion.

The high-performance active ingredients of the Cellular Regeneration Complex – called CRC for short – ensure a comprehensive regeneration of mature skin and strengthen the skin's structure. Red clover extract has been shown to reduce wrinkles, tighten the skin and moisturise. Kombucha, a multi-active ingredient from fermented black tea, improves the radiance. Recent studies show that Kombucha can stimulate the development and maturation of the fat cells in the skin and thus acts as a natural lipo-filling.

At the same time, short and long-chain hyaluronic acid provides intensive moisture and immediately makes the complexion look plumper. Vitamin A - palmitate supports the natural skin renewal process and repairs minor damage caused by UV radiation, for example.

The result: Your skin is fresher, looks more firm and smooth – quite simply, younger.

Home care application

Apply Perfect Lift Cream in the mornings and/or evenings on cleansed skin on your face and décolleté.

Tip: Ideal as a make-up foundation!

Note: Face Guard Advanced provides effective protection from UV radiation. During the day, you can apply this ultra-light emulsion under the Perfect Lifting Cream.

ACTIVE SUBSTANCES

- **CRC (Cellular Regeneration Complex):**
 - **Red Clover Extract:** Rich in isoflavones, reduces creases, firms the skin, moisturises
 - **Kombucha:** Fermented black tea, smooths the skin thanks to the lipo-filling effect, improves radiance and gives a rosier complexion
- **Vitamin A - Palmitate:** Stimulates cell activity and promotes skin regeneration
- **Long and Short-Chained Hyaluronic Acid:** Moisturising and binding. Ideal for mature skin which is showing traces of small creases
- **Saccharide Isomerates:** Moisture-based substance based on natural sugars, acts as a moisture-magnet, moisturises and binds moistures in the upper layers of the skin
- **Squalene:** Nourishes the skin and protects it against dehydration
- **Macadamia Nut Oil:** Natural oil, gently soothes and softens the skin

MATURE SKIN

- **Maintains moisture, balances lipids**
- **Rich consistency**
- **Increases the skin's tension and elasticity**
- **Ensures soft, smooth skin**
- **Improves radiance**
- **Anti-ageing effect and protection against the cold**

Rich Recovery Cream

REGENERATING ANTI-AGEING CARE WATER-IN-OIL EMULSION

Hormonal changes make mature skin thinner, impair its barrier function and reduce its resistance. Rich Recovery Cream is the richer alternative to the Perfect Lift Cream. It has been deliberately developed as a water-in-oil emulsion, as this forms a protective film on the skin and supports the barrier properties of the skin.

The contained Cellular Regeneration Complex – called CRC for short – ensures a comprehensive regeneration of mature skin and strengthens the skin's structure. Red clover extract has been shown to reduce wrinkles, tighten the skin and moisturise. Kombucha, a multi-active ingredient from fermented black tea, improves the radiance. Recent studies show that Kombucha can stimulate the development and maturation of the fat cells in the skin and thus acts as a natural lipo-filling.

In addition, the lipid complex of shea butter, squalene and macadamia nut oil balances out gaps in the moisture supply in areas of dry skin.

Rich Recovery Cream is a powerful massage cream to keep in your bathroom cabinet.

Home care application

Apply Rich Recovery Cream in the morning and/or in the evening on the cleansed skin of the face and décolleté.

Tip: Particularly in the winter, Rich Recovery Cream helps to protect the skin from aggressive climatic influences, the cold and dryness.

Note: Face Guard Advanced effectively protects the skin from UV radiation. Simply apply the ultra-light emulsion under the Rich Recovery Cream during the day.

ACTIVE SUBSTANCES

- **CRC (Cellular Regeneration Complex):**
 - **Red Clover Extract:** Rich in isoflavones, reduces creases, firms the skin, moisturises
 - **Kombucha:** Fermented black tea, smooths the skin thanks to the lipo-filling effect, improves radiance and gives a rosier complexion
- **Vitamin A - Palmitate:** Stimulates cell activity and promotes skin regeneration
- **Saccharide Isomerates:** Moisture-holding substance based on natural sugars, acts as a moisture-magnet, moisturises and binds the moisture in the upper layers of the skin
- **Shea Butter:** Cares intensively for the skin and gives it a soft and gentle feeling
- **Squalene:** Nourishes the skin and protects it against dehydration
- **Macadamia Nut Oil:** Natural oil, gently soothes and softens the skin

MATURE SKIN

- **Ideal additional care for more toned skin**
- **Care concentrate in a light emulsion**
- **Visibly improves the skin structure and firmness**
- **Radiant complexion with enhanced luminosity ensures a fresh, youthful appearance**

Age Perfecting Serum

ANTI-AGEING SERUM TO COMPLEMENT YOUR DAILY SKIN CARE

Age Perfecting Serum, with its Cellular Regeneration Complex, is the ideal supplement to the MATURE SKIN skin care creams. The highly-concentrated serum strengthens their effects and ensures firmer skin and soothing suppleness every day.

The high-performance active ingredients of the Cellular Regeneration Complex – called CRC for short – ensure a comprehensive regeneration of mature skin and strengthen the skin's structure. Red clover extract has been shown to reduce wrinkles, tighten the skin and moisturise. Kombucha, a multi-active ingredient from fermented black tea, improves the radiance. Recent studies show that Kombucha can stimulate the development and maturation of the fat cells in the skin and thus acts as a natural lipo-filling.

In addition, short and long-chain hyaluronic acid provides intensive moisture and makes the complexion appear instantly plumper. Vitamins C and E protect the skin from cell-damaging free radicals and help to prevent premature skin ageing caused by light. In combination with plant stem cells from the alpine rose, the skin is optimally protected against environmental stress.

For fast and visible results, the serum should be combined with your regular care routine in the morning and evening.

Home care application

In the mornings and evenings, apply Age Perfecting Serum to the cleansed skin of the face and décolleté. You can then apply your usual care cream over it.

***Tip:** Age Perfecting Serum can be applied right up to the eyes before the usual eye contour care.*

ACTIVE SUBSTANCES

- **CRC (Cellular Regeneration Complex):**
 - **Red Clover Extract:** Rich in isoflavones, reduces creases, firms the skin, moisturises
 - **Kombucha:** Fermented black tea, smooths the skin thanks to the lipo-filling effect, improves radiance and gives a rosier complexion
- **Long and Short-Chain Hyaluronic Acid:** Moisturising and binding. Ideal for mature skin which is showing traces of small creases
- **Vitamin E - Acetate:** Becomes free vitamin E in the skin and neutralises damaging free radicals
- **Vitamin C - Phosphate:** Stabilises vitamin C, acts as an antioxidant, supports the effect of vitamin E and the new formation of collagen
- **Plant Stem Cells from the Alpine Rose:** Strengthen the skin and make it more resistant to environmental stress

MATURE SKIN

- **Combats various signs of skin ageing overnight**
- **Gives you visibly more beautiful skin in the morning**
- **Care concentrate in a light gel emulsion**
- **Visibly improves the structure and firmness of the skin**
- **Radiance and improved luminosity give a special fresh and youthful appearance**

Night Recovery Serum

REGENERATING ANTI-AGEING SERUM FOR THE NIGHT

Night Recovery Serum with Cellular Regeneration Complex supports the nightly repair mechanism of the skin. Rejuvenation of the skin is boosted and the moisture content of the skin improved over the long-term. Thanks to night-time intensive regeneration, the skin looks relaxed, moistened and small lines and wrinkles appear visibly reduced.

The high-performance active ingredients of the Cellular Regeneration Complex – called CRC for short – ensure a comprehensive regeneration of mature skin and strengthen the skin's structure. Red clover extract has been shown to reduce wrinkles, tighten the skin and moisturise. Kombucha, a multi-active ingredient from fermented black tea, improves the radiance. Recent studies show that Kombucha can stimulate the development and maturation of the fat cells in the skin and thus acts as a natural lipo-filling.

Silk acacia extract promotes the visible reduction of the signs of fatigue. It helps to protect and repair the skin from protein damage caused by glycation (saccharification). In addition, short and long-chain hyaluronic acid provides intensive moisture. Plant stem cells from the alpine rose strengthen the skin barrier.

For fast and visible results, the serum should be combined with your regular care routine in the evening.

Home care application

In the evenings, apply Night Recovery Serum to the cleansed skin of the face and décolleté. You can then apply your usual care cream over it.

***Tip:** Before the usual eye contour care, Night Recovery Serum can be applied right up to the eyes.*

ACTIVE SUBSTANCES

CRC (Cellular Regeneration Complex):

- **Red Clover Extract:** Rich in isoflavones, reduces creases, firms the skin, moisturises
- **Kombucha:** Fermented black tea, smooths the skin thanks to the lipo-filling effect, improves radiance and gives a rosier complexion
- **Silk Acacia Extract:** Extract from the bark of the Persian silk acacia (*Albizia Julirissin*), helps to prevent the signs of tiredness on the skin (dull complexion, taut facial features)
- **Plant Stem Cells from the Alpine Rose:** Strengthen the skin and make it more resistant to environmental stress
- **Long and Short-Chain Hyaluronic Acid:** Moisturising and binding. Ideal for mature skin which is showing traces of fine creases

MATURE SKIN

- Provides and maintains moisture
- Noticeably strengthens the facial contours
- More relaxation and care with every application
- Improved radiance
- Creamy soft and pleasant to apply

Rejuvenating Mask

HIGHLY-EFFECTIVE REGENERATING CREAM MASK

The Rejuvenating Mask, with the Cellular Regeneration Complex, is a supplementary intensive care with a quick and noticeable effect for mature, dry skin, whose regenerative capacity and tension has lessened. The rich formula provides soothing relaxation and revitalises dull, tired skin in just a few minutes.

The high-performance active ingredients of the Cellular Regeneration Complex – called CRC for short – ensure a comprehensive regeneration of mature skin and strengthen the skin's structure. Red clover extract has been shown to reduce wrinkles, tighten the skin and moisturise. Kombucha, a multi-active ingredient from fermented black tea, improves the radiance. Recent studies show that Kombucha can stimulate the development and maturation of the fat cells in the skin and thus acts as a natural lipo-filling.

A combination of Sensitive Complex and Bisabolol provides a comprehensive, skin-calming effect. Short and long-chain hyaluronic acid provide the skin with intensive moisture.

The result: The skin immediately appears rested, revitalised and radiant.

Home care application

Apply the Rejuvenating Mask generously to the cleansed skin two to three times a week. Leave on for 10-15 minutes and remove the residue with a moist, warm flannel – then follow your usual care routine.

Tip: For dry skin, dab away any residues with a cellulose cloth and, instead of using an additional night cream, you can just go to bed.

ACTIVE SUBSTANCES

- **CRC (Cellular Regeneration Complex):**
 - **Red Clover Extract:** Rich in isoflavones, reduces creases, firms the skin, moisturises
 - **Kombucha:** Fermented black tea, smooths the skin thanks to the lipo-filling effect, improves radiance and gives a rosier complexion
- **Sensitive Complex:** Plant extract with the active ingredients from Centella asiatica and butcher's broom, has a soothing effect on the skin
- **Bisabolol:** Normalises and soothes even sensitive skin
- **Long and Short-Chained Hyaluronic Acid:** Moisturising and binding. Ideal for mature skin which is showing traces of small creases
- **Macadamia Nut Oil:** Natural oil, gently soothes and softens the skin
- **Cupuacu Butter:** Valuable lipid, cares for the skin
- **Vitamin E - Acetate:** Becomes free vitamin E in the skin and neutralises damaging free radicals

MATURE SKIN

- **Smooths-out lines and little creases**
- **Reduces shadows and swelling under the eyes**
- **Increases the tension and elasticity of the eye zone**
- **Stimulates the skin's own regeneration processes**
- **Rich and yet easy to apply**
- **Enables long-lasting eye make-up**

Tri-Care Eye Cream

FIRMING EYE CARE WITH A TRIPLE EFFECT

The skin around the eyes is one of the most sensitive areas of the face. Stress, fatigue and age show here first. Tri-Care Eye Cream with Cellular Regeneration Complex has been specially developed for the demands of mature skin. The rich formula smooths the demanding eye area and provides it with intensive moisture.

The contained Cellular Regeneration Complex – called CRC for short – ensures a comprehensive regeneration of mature skin and strengthens the skin's structure. Red clover extract has been shown to reduce wrinkles, tighten the skin and moisturise. Kombucha, a multi-active ingredient from fermented black tea, improves the radiance. Recent studies show that Kombucha can stimulate the development and maturation of the fat cells in the skin and thus acts as a natural lipo-filling.

At the same time, vitamin A - palmitate stimulates cellular activity and promotes the skin renewal process. The sensitive complex improves the microcirculation of the skin and counteracts dark rings under the eyes. Valuable plant-based oils compensate for any lipid deficiency. Vitamin E - acetate neutralises harmful free radicals.

The result: mature skin's demanding eye zone feels pleasantly soft, is firmer and has more radiance.

Home care application

Gently dab Tri-Care Eye Cream in the morning and/or in the evening on the cleansed skin around the eye area. It is also excellent as an eye-makeup foundation.

ACTIVE SUBSTANCES

- **CRC (Cellular Regeneration Complex):**
 - **Red Clover Extract:** Rich in isoflavones, reduces creases, firms the skin, moisturises
 - **Kombucha:** Fermented black tea, smooths the skin thanks to the lipo-filling effect, improves radiance and gives a rosier complexion
- **Vitamin A - Palmitate:** Stimulates cell activity and promotes skin regeneration
- **Sensitive Complex:** Plant extract with the active ingredients from Centella asiatica, butcher's broom and liquorice root, effective against dark rings around the eyes
- **Light-Scattering pigments:** Optically reduce fine lines and wrinkles
- **Long and Short-Chained Hyaluronic Acid:** Moisturising and binding. Ideal for mature skin which is showing traces of small creases
- **Macadamia Nut Oil:** Natural oil, gently soothes and softens the skin
- **Shea Butter:** Cares for the skin and leaves a protective film
- **Vitamin E - Acetate:** Becomes free vitamin E in the skin and neutralises damaging free radicals

MATURE SKIN

- Reduces the appearance of fine lines and wrinkles
- Helps improve skin firmness
- Smooths skin
- Improves the skin's radiance
- Reduces excessive pigmentation and protects against new pigment spots
- Protects against free radicals
- Revitalises the skin's appearance

Ceramide Protection

SKINCARE CAPSULES WITH CERAMIDES AND VITAMIN C

Ceramide Protection is an intensive treatment that leaves skin firm and radiant with an even tone. The silky, fast-absorbing oil combines ceramides and pro-vitamin C to improve skin texture, reduce age spots and make skin appear more youthful overall. As a precisely measured single dose, the capsules are super convenient and effective to use. In addition, the capsule form guarantees the ingredients remain fresh and effective.

Ceramide Protection contains moisturising lipids, called ceramides, which strengthen the natural barrier function of dry, mature skin, reduce moisture loss and thus minimise the appearance of fine lines and wrinkles.

At the same time, highly concentrated pro-vitamin C leaves the skin looking smooth and radiant. The innovative, very stable vitamin C derivative is converted into pure vitamin C in the skin, where it unleashes its many positive properties. It promotes collagen synthesis and at the same time inhibits the breakdown of collagen fibres. As a powerful antioxidant, it neutralises harmful free radicals and counteracts premature skin ageing. Last but not least, vitamin C reduces alterations in pigmentation and increases the skin's radiance.

For best results, we recommend using the 30 capsules as a month-long treatment. However, they can also be used in a targeted way as and when required.

Home care application

Apply Ceramide Protection in the morning and/or evening before applying your skincare cream. Twist open the capsule cap or cut it off with scissors. Squeeze the contents out of the capsule and apply to the skin using your fingertips. Paying special attention to lines and wrinkles, gently massage the delicate formula into the skin. For external use only.

Note: Face Guard Advanced effectively protects the skin from UV radiation. Simply apply the lightweight emulsion during the day before applying Ceramide Protection capsules.

ACTIVE SUBSTANCES

- **Ceramide III:** Supports the skin's natural barrier function by adding intercellular lipids; reduces the skin's TEWL, plumps fine lines and wrinkles, and increases the skin's moisture content
- **Pro-vitamin C:** Ascorbyl tetraisopalmitate, stable vitamin C derivative, transforms into pure vitamin C in the skin, stimulates collagen synthesis and at the same time inhibits the breakdown of collagen fibres, helps reduce UV damage, helps control melanin synthesis
- **Vitamin E acetate:** Becomes free vitamin E in the skin and neutralises harmful free radicals
- **Bisabolol:** Inhibits melanin synthesis; reduces pigment spots and helps brighten skin tone; soothes skin
- **Hop extract:** Helps reduce hyperpigmentation
- **Malonic acid derivative:** Protects against lipid peroxidation and reduces the effects of harmful environmental influences on the skin

MATURE SKIN

- **Intensive corrective care**
- **Immediate relief for tired, tense skin**
- **Smooths the skin**
- **Noticeably reduces lines and little creases**
- **Rich gel with a refreshing effect**
- **Improves the radiance**

Instant Lift Serum

INSTANT LIFTING SERUM

Instant Lift Serum, with the Cellular Regeneration Complex and highly-concentrated marine collagen, gives the skin new radiance and freshness in just a few minutes. The quick beautifier contains a high quantity of marine collagen which provides immediately-visible tightening of the skin. Collagens are responsible for the firmness and flexibility of the skin, they are moisturising and preserving, film-forming and firming – and all this in a short time!

In the long-term, the high-performance active ingredients in the Cellular Regeneration Complex – called CRC for short – ensure a comprehensive regeneration of mature skin and strengthen the skin's structure. Red clover extract has been shown to reduce wrinkles, tighten the skin and moisturise. Kombucha, a multi-active ingredient from fermented black tea, improves the radiance. Recent studies show that Kombucha can stimulate the development, maturation and plumping of the fat cells in the skin and it thus acts as a natural lipo-filling.

The result: The skin looks as if it has been padded, it looks smoother, more elastic and firmer.

Home care application

Apply Instant Lift Serum as needed morning and evening to the cleansed skin of the face. You can then apply your usual care cream over it.

Tip: Before the usual eye contour care, Instant Lift Serum can be applied right up to the eyes.

ACTIVE SUBSTANCES

- **CRC (Cellular Regeneration Complex):**
 - **Red Clover Extract:** Rich in isoflavones, reduces creases, firms the skin, moisturises
 - **Kombucha:** Fermented black tea, smooths the skin thanks to the lipo-filling effect, improves radiance and gives a rosier complexion
- **Marine Collagen:** Provides immediately-visible firming of the skin, improves the condition of dry and mature skin, forms a film and reduces transepidermal water loss

- **Firmer facial contours**
- **Smoother skin**
- **Radiant complexion**
- **Rich texture**

Home care application

Apply Skin Contour Cream onto the cleansed skin of the face and neckline in the morning and/or evening.

***Note:** Face Guard Advanced effectively protects the skin against UV radiation and preventatively combats premature skin aging. Simply apply the extremely light emulsion beneath Skin Contour Cream during the day.*

Skin Contour Cream

SKIN-LIFTING CARE CREAM

Skin Contour Cream possesses a lipid content of 27 %. The plentiful cream for optimizing the profile is outstandingly suitable for women who would like a richer care product.

JANSSEN COSMETICS has dealt intensively with the process of skin aging. We know that the treatment of wrinkles on the surface of the skin alone is not sufficient. The contour of the face is the most important criterion in estimating the perceived age. Sagging of the cheek area immediately makes a person appear older. If cheek sagging is reduced, the person automatically appears younger in the eyes of the beholder.

Skin Contour Cream remodels skin which is in need of regeneration and firms it from its depths. The skin is helped at the point at which aging begins. The effectiveness of the innovative contents has been scientifically proved* and makes the power emulsion a specialist for firmer, lifted skin with increased radiance.

In addition, the highly-active plant extract SORR specifically combats unattractive collections of melanin (brown flecks) and skin redness which tend to form as we age. SORR has an anti-inflammatory and antioxidant effect, and therefore protects the three chromophores (collagen, hemoglobin and melanin), which ensure flawless skin without blemishes and pigmentation disorders.

ACTIVE SUBSTANCES

- **ESP***: Elastin-stimulating peptides; these stimulate elastin synthesis in the fibroblasts, firm the connective tissue structure and lift the facial contours
- **Plant extract SORR****: Highly-active extract of Siegesbeckia orientalis and Rabdosia rubescens; has an anti-inflammatory and antioxidant effect, leads to a more even and radiant complexion
- **Long- and short-chain hyaluronic acid**: Extreme moisturizing and moisture-retaining effect, high moisture binding capacity
- **Genuine Japanese silk**: Possesses a structure related to the skin; is rapidly absorbed, protects against dehydration, leaves the skin supple and soft
- **Macadamia nut oil**: Softening and skin-smoothing, rich in palmitoleic acid; palmitoleic acid enhances the oil's ability to penetrate into the skin
- **Isostearyl-isostearate**: Shortened to ISIS; emollient based on replenishable raw plant materials; improves the cohesion of the lipids in the horny layer (Stratum corneum) and reduces the skin's trans-epidermal moisture loss
- **Vitamin A palmitate**: Speeds up natural skin renewal
- **Vitamin E acetate**: Radical scavenger; offers preventative cell protection; combats premature skin aging

ESP & SORR

* Scientific studies on the effect of ESP (elastin-stimulating peptides)

1. Increase in elastin synthesis: + 15 % (in vitro study)
2. Promotion of elastic fiber anchoring: 94 % (in vitro study)
3. Increase in skin elasticity: 14 % nach 2 Monaten (klinische study)
4. Lifting of the facial characteristics (sagging cheeks): 11,3 % after 2 months (clinical study)
5. Self-assessment:
26 female volunteers with visibly sagging skin tested a cream containing 4 % ESP for 2 months in the morning and evening. Volunteers' self-assessment:

| | |
|---------------------------------------|-------------|
| Remodeled face: | 80 % |
| Less slack tissue: | 64 % |
| Lifted facial characteristics: | 62 % |

** Effectiveness study with the highly-active plant extract SORR

(Extract of Siegesbeckia orientalis and Rabdosia rubescens)

1. Effect on melanin (brown flecks)
 - 1.1. **Decrease in melanin content: 45 %** (in vitro study)
 - 1.2. **Reduction of the uptake of melanosomes in the keratinocytes: 34 %** (in vitro study)
2. Effect on hemoglobin (red flecks)
 - 2.1. **Decrease in vascular endothelial growth factor (VEGF): 44 %** VEGF-content (in vitro study)
 - 2.2. **Observation of capillary density: 60 %** vessel expansion (in vitro study)
