

# Goals and Objectives

- Review and discuss the role of technology in the Common Core
- Experience how Google Apps can assist with all aspects of the curriculum and naturally allow students to research, produce, publish, collaborate and interact.
- Explore Google Docs
- Understand and explore aspects of search
- Develop Common Core lessons that utilize one or more of these tools

# Google Document

A simple, straight-forward word processing tool that can be used by an individual or groups.

## Features:

- Undo, redo, cut, copy, paste
- Basic style features
- Can add fonts
- Research, define, word count, translate
- Saves automatically

# Drawing Task

Now You Try!

Create a poster that depicts the essence of the CCSS Writing Standard 6.

Things you might include:

photos/clipart, word art,  
variety of fonts and colors

# Google Classroom

## Step 1: Create a Class

The screenshot displays the Google Classroom interface. At the top left, the Google Classroom logo is visible. Below it, there are several class cards, including one titled "Intervention and Ref..." with 97 students. In the top right corner, a red circle highlights a menu with two options: "Join class" and "Create class". A "Create class" dialog box is open in the foreground, featuring the following fields:

- Create class**
- Class name (required)
- Section
- Subject
- Room

At the bottom of the dialog box, there are two buttons: "CANCEL" and "CREATE".
