Materials Needed For Elsa Crown

1. A parent to supervise and help
2. A cardboard box (cereal boxes are great for this because they are easier to cut, but any cardboard you can cut safely will do)
3. Scissors
4. A hole punch
5. A piece of paper (This can be plain or colorful, this is up to you!)
6. A glue stick
7. Elmer’s glue for glitter or embellishments (optional)
8. A ruler
9. A string, ribbon, or yarn
10. Embellishments like glitter (parents LOVE glitter), stickers, buttons, markers, etc to decorate your crown

Don’t forget to post pictures of your crown on social media (with your parents permission) using the hashtag #athomewiththewayne
