

FINISHES

Each material is sourced with care and consideration of its lasting qualities and impact on the environment, providing a signature approach that is minimal and timeless.

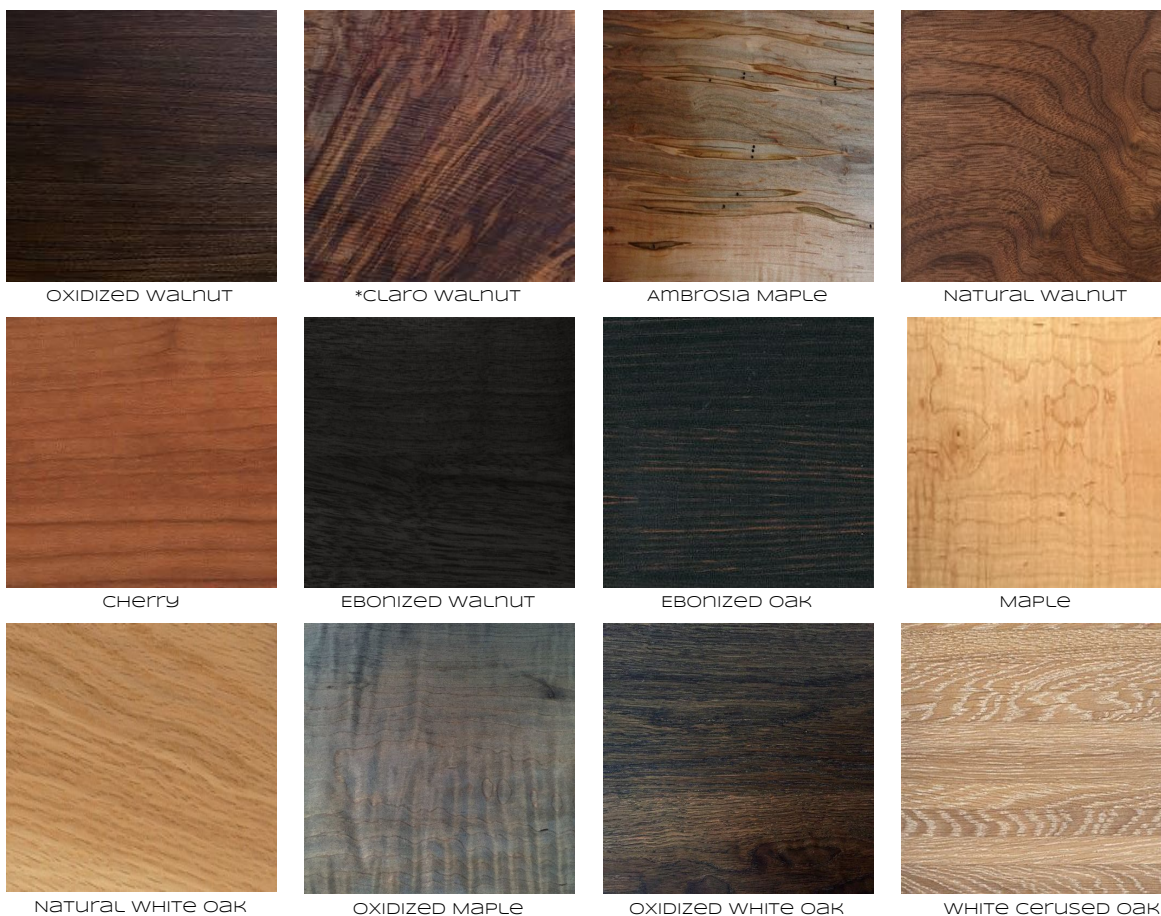

WOOD

We finished our solid wood surface with natural linseed oil and wax. The surface receive 2 to 3 coats of oils + a polishing process between coats. The polishing process allow the oil to warm-up and penetrate into the wood grain more deeply and evenly. Providing an excellent stain resistance without compromising the natural warm touch of the wood. We recommend an annual maintenance for the more commonly used wood surface. See our maintenance sheet for more details.

Wood characteristics such as grain, texture & color will vary from piece to piece. This variation is an inherent quality of hardwoods, which adds to its beauty as a product of nature. Wood, especially hardwoods, will expand and contract with fluctuating conditions in the environment. They expand when the humidity increases and contract when it decreases.

At Ambrozia Furniture, we sustainably source lumber from local lumber mills, with the exception of *Claro Walnut, which is sourced from sawmills in Northern California and Oregon. Below are the wood species and finishes we offer. Please note that not all options are available for all pieces. We're also open to source different species and work on custom finished on demand.

LEATHER

Directly sourced from the best tanneries in Italy, our leathers are 100% authentic and available in a wide variety of styles, finishes & colors which will suit your lifestyle and needs.

Know that the maintenance of our leathers is a very simple process. Just clean the surface of the leather with a damp cloth once a week. Since our leathers are already treated, no third-party cream or cleaning products should be applied.

COWHIDE

Directly sourced from the best tanneries in America, our Cowhides are 100% authentic and available in a wide variety of styles, finishes & colors which will suit your lifestyle and needs.

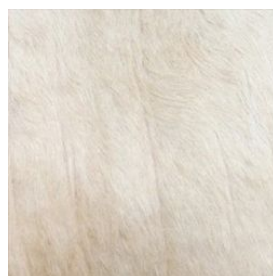

Like the wood, all cowhides are unique which adds to its beauty. Our hides are selected by hands. We thrive to offer the best quality possible, but never forget that there was a first life to those skins before we give them a second life. Some small scars or minor imperfection can be visible sometimes, but we do our best to avoid them.
