MyFC delivers JAQ Hybrid to Huangdou e-commerce

Stockholm, March 28 2018

Swedish fuel cell company myFC has now delivered JAQ Hybrid to the Chinese customer Huangdou e-commerce according to plan. This is the first commercial delivery of JAQ Hybrid.

500 units of the JAQ Hybrid fuel cell charger have been delivered. This is the first order, at a value not exceeding half a million SEK.

"Delivery has gone according to plan, and we look forward to seeing our fuel cell charger with the Chinese consumers," says Max Rydahl, Sales and Marketing Director at MyFC.

JAQ Hybrid is a power bank for smartphones and tablets with an integrated LAMINA fuel cell from myFC. It can therefore be charged either using myFC's patented green fuel, or through the wall outlet.

About myFC

MyFC, a Swedish innovation company and market leader in micro fuel cells, develops green energy solutions. Its JAQ Hybrid platform, which co-locates fuel cell and battery to charge smartphones and tablets, was launched in 2017. JAQ Hybrid is the company's third

hydrogen-powered product following JAQ and PowerTrek. It runs on the company's patented fuel consisting of salt, water and reactants. MyFC was founded in 2005 and is part of the group myFC Holding AB. MyFC Holding was listed on NASDAQ | First North in May 2014. Its head office is located in Stockholm and the company's Certified Advisor is Avanza Bank. For more information, visit www.myfcpower.com
