Estimator

Sweetnam & Bradley Limited are the Premier Sheet Metal Fabricator and Finisher in the South-West of England. We are looking for an Estimator to join our forward-thinking team. We pride ourselves on the longevity of our Customer and Supplier relationships and this culture is underpinned by a low turnover of staff within the company. The successful candidate will be pragmatic in their approach and have experience in engineering, ideally in the sheet metal industry. They will report directly to the Business Development Director and will play an instrumental role in the success and growth of the company.

Responsibilities

The successful candidate will be expected to (but not limited to) undertake and be responsible for the following duties/areas: -

- Estimating/quoting new and existing business enquiries.
- Pre-production review, hand-over from estimating into production.
- Sub-contractor pricing, from material to fasteners to machining.
- Supplier development.
- Sub-contractor & customer visits, at least 4 per month.
- Liaising with clients to understand their requirements and steering design to our manufacturing methods.
- Supporting the Sales team, meetings & customer queries.
- Support in up skilling members of the team.
- Work on own initiative and be self-motivated to arrange a daily diary and work as part of a team without constant supervision.
- Instrumental in the role out of new quoting software (RAD quote).
- Regular interfacing and integration with the Production Manager to ensure alignment between estimate and production.
- Calm under pressure and be able to manage multiple tenders concurrently.
- Monthly work in progress monitoring & recording.

Qualifications and Skills

- 5+ years' experience in engineering/estimating is preferred.
- Strong IT, communication skills and demonstrable commercial acumen.
- An understanding of materials and manufacturing processes.
- Good planning and organisational skills.
- Preferably HND/HNC Qualified in an Engineering/Manufacturing Discipline.
- Leadership abilities and ability to work independently as well as in a team.
- Knowledge of using 3D Radan CAD/CAM software (similar).
- Full UK driving license.
