# Asset Tracking Starter Pack

## INSTALL IN ONE DAY

The Starter Pack was specifically designed to be installed in one day with a basic set of tools. If you've ever stripped a wire, jumped a car battery or used a caulking gun then you can be an installer.

## PAYS FOR ITSELF

### GAIN EFFICIENCY

Spend less time looking for tools and equipment by quickly seeing where assets were last located.

### REDUCE WAIT TIMES

Don't make a \$42/hr. worker wait for a \$100 tool. Know exactly how many day-to-day tools are over utilized and when to increase tool inventory in order to reduce labor costs.

### OPTIMIZE INVENTORY

Make more informed rent/buy decisions by being able to see where your inventory is located vs. where it is needed at any given time.

### DECREASE LOSSES

Recover assets by getting reports when tools and equipment are left behind on a job site.

### STREAMLINE MAINTENANCE

Use actual run-time to schedule maintenance rather than basing it on calendar intervals.

## TRACK 50 ASSETS

Have 50 tools and/or assets where you need at the time and in the place where you need them most. Stop wasting time looking for misplaced tools.

Capture run-time data to optimize rentals, billing, maintenance and overall jobsite activity. Discover and address the hidden inefficiencies that reduce profits and productivity.

## ZERO HASSLE

AUTOMATIC

### NO SCANNING

Avoid scanning, barcodes or opening apps - with Recon all data is gathered, transmitted, and updated automatically and accessible on any wireless device.

### NO BATTERY CHANGES

Recon Dynamics batteries last 7+ years. Stop spending extra labor hours charging (GPS) or changing batteries (Bluetooth & RFID).

### NO INTERFERENCE

Signal fits through the spaces that others cannot (i.e job box lids). Recon's unique signal is more powerful and specifically optimized for tool & equipment applications.

### NO DEVICE LIMITS

After using the install application, all of your data and search capabilities will be accessible via a secure mobile-responsive web dashboard for phone, tablet or PC.

# Welcome to Effortless.

### Included with the package

- 50 "smart tags"
- 3 "truck" boxes (12V)
- 2 "yardboxes" (110V)
- Cables & Logins
- 6 weeks of onboarding
- 3 months of service
- Install instructions and ongoing support

# Asset Tracking Starter Pack

### Smart Tag "Proxlet"

RANGE	300 ft.
FUNCTION	Tunable multi-axis accelerometer
ADJUSTMENTS	Wirelessly reprogrammable in the field (OTA)
INSTALLATION	Epoxy (bolt-on aluminum cages sold separately)
SET UP	Android or IOS App
BATTERY LIFE	7+ years pinging every 5 minutes or faster if moving
DURABILITY	Rugged & submersible
SIZE	1.9" x 0.8" x 0.5" thick

### Yard Box

RANGE	300ft. w/ standard pancake antenna. FCC-approved for eight different strength and direction settings
FUNCTION	Connects smart tags to cloud and GPS
ADJUSTMENTS	Wirelessly reprogrammable in the field
INSTALLATION	4 bolts + antenna mount
SET UP	Android or IOS App
POWER SUPPLY	120V (solar option sold separately)
DURABILITY	Rainproof extruded aluminium (IP66)
SIZE	7.5" x 9.2" x 2.8" thick

### Truck Box

RANGE	300ft. w/ standard pancake antenna. FCC-approved for eight different strength and direction settings
FUNCTION	Connects smart tags to cloud and GPS
ADJUSTMENTS	Wirelessly reprogrammable in the field
INSTALLATION	4 bolts + antenna mount
SET UP	Android or IOS App
POWER SUPPLY	Directly wired with inline fuse to truck's power system
DURABILITY	Rainproof extruded aluminium (IP66)
SIZE	7.5" x 9.2" x 2.8" thick

### Service

The Starter Pack includes 3 months of connection and unlimited support. Installation videos, and live video chats are among the many tools that enable effortless installation and onboarding.

### On-Boarding

Recon delivers a weekly use-case scenario for each of the first 6 weeks to ensure that the entire team gains a working knowledge of the system so that you are all up to speed as quickly as possible.
