S: Some Quarantine Gold!

Hi [[Lead's First Name]],

I hope you've been staying safe and healthy during these strange times. We recently reviewed your policies and noticed you have your Home policy with us but not your Auto. Some of my carriers have lowered their Auto rates because people are driving a lot less...which is great! This is probably your best time to get an auto quote so that you can save money while getting equal or better coverage. Would it be ok if I quoted your Auto?

Thanks,
