Becoming Ka Ma Ma Webinar Series:
An Integrated Public Health Performance Management Model

February 11, 2020
Becoming Ka Ma Ma: A Journey of Health System Transformation

Developed by Red Star International, Inc [https://redstarintl.org/]

In partnership with Seven Directions, A center for Indigenous public health, University of Washington [https://indigenousphi.org/]

We would like to acknowledge Cherokee nation for their support of this work [https://health.cherokee.org/public-health/]

Funding made possible through Centers for Disease Control (CDC), cooperative agreement award number NU380T000260-01-01
Today’s moderator

- Danielle Lucero is a citizen of the Pueblo of Isleta and is also Turtle Mountain Band of Chippewa.

- She received her MPH/ MSW at the University of Washington (2018/2019).

- Since joining Seven Directions she has supported tribal public health capacity building, conducted qualitative data analysis, curated and developed content for Gathering Grounds Indigenous, Community of Practice. She is also lead organizer of the Seven Directions Story Slams.
Today’s presenter

● Christina E. Oré is a Sr Advisor and Researcher/Evaluator for Seven Directions, University of Washington.

● In 2018, she received her DrPH in policy & management from the University of Arizona (UA), with an emphasis on Indigenous health systems strengthening.

● Over the past 24 years, Christina has worked for the Pascua Yaqui Tribe on initiatives ranging from Indigenous human rights conference, research and policy, performance improvement/management, accreditation, and data capacity/infrastructure.

● Born and raised in Arizona, Christina is of Quechua descent (Ayacucho/Huancavelica, Peru). She lives in Tucson, Arizona with her partner Joseph; children, Munai and Tenzin; and extended family.
Raquel E. Aviles (Yaqui) is a proud citizen of the Pascua Yaqui Tribe of Arizona. She has served the tribal community for over 20 years, most recently as the Associate Director of Health Service Division for the Pascua Yaqui Tribe.

She has led several health and wellness initiatives with tribal and urban populations (e.g., SAMSHA Circles of Care Project, Sewa Uusim, Equine Therapy, and Native Aspirations – GONA model).

Raquel has a Masters of Healthcare Innovation (MHI) from Arizona State University (ASU) with a focus on leadership, system thinking and the Seven Pillars of Innovation. In her free time,

Raquel paints and enjoys the outdoors with her husband, David, and their three children: David Jr., Emmaleen and Anthony.
Series of Webinars

- (Re) imagining tribal health systems, an Indigenous Approach
  January 14, 2020
- An Integrated Public Health Performance Management Model
  February 11, 2020
- Get to Know Gathering Grounds
  February 18, 2020
- Strong Tribal Governance for Community Health – March 17, 2020
Indigenous Systems ‘by and for’ Tribal Nations

Self-determination is the principle that tribal nations are inherently sovereign and have the right to freely assert their sovereignty and political status.

Tribal sovereignty was later recognized through treaties, the US Constitution, federal legislation, court decisions, and acts.

Government-to-government relationship
Logistics

- 1 hour
- Listen only - Participants are muted
- Polls and Activities
- Questions and Answers (Q&A)
  - Any time
  - End
Poll

Objectives

A Public Health Performance Management Model for Integration

Define an emerging Indigenous approach for systems work

Describe a model

Share its use and application
Gathering of Native Americans (GONA) adapted

relational ongoing connected

North
PROMOTING COMMITMENT
generosity

West
WORKING TOGETHER
Interdependence

South
BUILDING SKILLS
Mastery

East
BELONGING
Building Relationships
Framework from Community to Systems

GONA Elements & Values

Integration and alignment within tribal systems

Health System Transformation
What point in the cycle?

What stage of transformation are you at?
Integrated Performance Management System Framework

Define Issues and Priorities
- Community Health Assessment
- Organizational Self Assessment
- Other performance assessment tools

Develop plans to achieve goals
- Community Health Improvement Plan
- Organizational Strategic Plan

Develop work plans to operational goals
- QI Plan
- Workforce Development Plan
- Non-Communicable Disease Plan
- Other programmatic plans

Monitor progress and evaluate success
- Benchmarks
- Outputs
- Outcomes

Do the work
- Program activities
- Operational plans

Allocate dollars to support your plan
- Performance based budgets
- Grants

Adapted from the Montana PHSD Integrated Performance Management System by Aleena Kawe, Red star International, Inc
Poll

Which areas are you working on currently?
Performance Management for Health Systems Transformation

PRAXIS

- Shared concepts of health, well-being, wellness
- Public Health Performance and Quality
- Systems Thinking
- Relational Accountability
Performance is not only WHAT we do! but HOW we do it!
GONA Element
Relationships

- Infancy/Childhood
- Beginnings, introspection
- Belonging
- Establish common ground
- Gain shared understanding
- Basis for setting common goals
- Establish foundation to *build relationships*

PM Element
Assessment

- Engage leadership, stakeholder and community in a *participatory* process.
- Provides *data* about tribal health department capacity and community health, wellbeing, and wellness.
- Establishes a shared understanding about organizational performance and community health.
- **Basis for decision-making** about capacity improvements and achieving community health outcomes
GONA Element
Building Skill

- Adolescence
- Growth, drawing life from the sun, making plans.
- Learn about our individual and collective capabilities.
- Identify our contributions that are valuable to the planning process.
- Develop skills and decision making as a group.

PM Element
Strategic Planning

- Engage leadership, stakeholder and community in a participatory process.
- Articulate a shared vision, mission and guiding principles.
- Prioritize for improvement based on shared understanding of assessment data.
- Identify strategic priorities to improve performance and health improvement.
- Establish a system for monitoring plan implementation.
GONA Element
Working together

- Adulthood in life cycle
- Recognize our interdependence with colleagues, partners, organizational culture and environment.
- Recognize role as part of a cultural, social, political and environmental framework of the community.
- Honor and reinforce the notion that groups are stronger and more effective when they solve problems together.

PM Element
Management

- Plan the required work tasks and resources.
- Develop a set of operational plans that align with the tribal health department strategic plan and CHIP.
- Ensure a qualified and competent workforce.
- Allocate funds to improve tribal health department performance and community health.
- Do the work! Implement the plans.
GONA Element

Elder

- Embody generosity – give and share knowledge.
- Celebrate the journey travelled thus far.
- Reflect on lessons learned and teach others.
- Examine our responsibility to give back to community for future generations.

PM Element

Evaluate

- Monitor progress.
- Evaluate what’s working and what isn’t.
- Use metrics, outcomes and indicators identified across the various plans.
- Implement quality improvement projects to bolster efficiency, effectiveness, and responsiveness to community.
- Reporting outcomes to tribal leadership, tribal depts/programs, community.
- Plan next year’s work.
Impact of this model:

- Performance
- Quality
- Effective (outcomes)
- Efficient (cost)
- Timeliness
- Responsiveness (community)
- Data informed decision making

Indigenous Public Health

We have-

Children to raise
Elders to care for
Languages to learn
Sovereignty to exercise
Dances to celebrate
Bloodlines to honor
Rights to assert
Water to protect
Lands to love
Seeds to cultivate
Medicines to propogate
Lifeways to LOVE
Do you see why we need u?
