

# COMPONENTS OF Pascua Yaqui Tribe's Peer Support Model

<b>Cultural Fit</b>	<p>Equine therapy and cultural leaders</p> <p>Traditional Healing Program</p> <p>The Alternative Medicine Program</p>	<b>Innovative Practice</b>	<p>Provide MAT with individual/group counseling with cultural healing with traditional healthers, and/or alternative medicine</p>	<b>Knowledge Sharing</b>	<p>Presentations at local and national conferences and training</p> <p>Staff are on local and national advisory boards</p>
<b>Cross Sector Collaboration</b>	<p>Partner with behavioral health, language dept., social services and the police dept.</p> <p>Working on agreements with the city</p>	<b>Meeting Community Needs</b>	<p>Care coordination</p>	<b>Community Investment</b>	<p>Tribal Council approved MAT as service on the reservation</p>
<b>Leadership</b>	<p>Community meetings which tribal council members attend</p> <p>Tribal Council and Elder engagement</p>	<b>Professional &amp; Cultural Development</b>	<p>Training focused on resilience, community-based training and other therapeutic approaches</p> <p>Board certified providers for Addiction Medicine</p>	<b>Sustainability</b>	<p>Funding to start up the peer support program and to get Narcan from the state</p>
<b>Data Infrastructure</b>	<p>Monthly chart reviews</p> <p>Access to data by all involved in care</p> <p>Data infrastructure development from Day 1</p> <p>Data sharing and governance</p>	<p>The PYTHSD peer support model is strength based and draws on Indigenous-centered praxis, relationships, and capacity building to support a coordinated care approach with the New Beginnings program. A major challenge for the program's performance and success is tribal data capacity and infrastructure development.</p>
