Why Work With Simmons & Associates, LLC.?

Simmons & Associates, LLC (S&A):

S&A was established to leverage extensive business, security, and emergency management practices to enhance federal and commercial contractors' effectiveness with key areas to identify, evaluate, and implement industry best practices. S&A's President and CEO, Isaac Simmons, is a tenured Security professional with 30 years directly relevant experience working large government contracts to provide innovative, cost-effective solutions that increase operational efficiency. His extensive federal contracting venues include such agencies as Department of Energy, National Nuclear Security Agency, Department of Corrections, Department of Homeland Security, and commercial venues.

SDVOSB:

S&A is a Department of Veteran Affairs First Program Service-Disabled Veteran-Owned Small Business, a self-certified Small Disadvantaged Business, and minority-owned (8a candidate) small business with proven capability to leverage leaderships experience, knowledge, and skills (FAR 15:305(2)iii) to provide innovative solutions that meet and exceed client's expectations. Combining Simmon's vast experience and capabilities with the 5-Star small business credits propel S&A to be the first-choice vendor for filling security, emergency management, K-9, Escort, dispatcher, guards, and risk analysis projects.

Strategic Partnering:

S&A has strategically partnered with Golden SVCS, LLC, a recognized successful federal security services contractor with national contracts with distinguishing clients to include the Department of Energy, National Aeronautical Space Agency, Department of Homeland Security and commercial agencies. This strategic alliance permits

S&A to glean business and security best practices immediately, thereby, providing an exponential growth advantage that fosters success for clients.

Why Work With Simmons & Associates, LLC.?

Business and Operations Experience:

S&A is a tenured nuclear safeguards and security Small Disadvantaged Business with extremely diverse capabilities to support DOE S&S Programs to enhance capabilities. Our management team has 30 plus years' experience providing successful program project management, TSCM, SSSP, VA, Systems engineering, Info/Op Sec, self-assessments, quality and performance assurance, protective force operations, contract management, procurement & logistical support, small business management, performance assurance, physical security systems and cybersecurity services throughout the DOE/NNSA community. We have extensive knowledge of the DOE S&S industry requirements and have extensive experience providing transparent small business support that meets contract requirements and contributes directly to small business credit in multiple categories.

Business Benefits:

- Support operational needs while reducing risk, mitigating pitfalls through the application of best practices and industry expertise while contributing directly to small business goals. Supports contract requirements, provides transparent small business support, reduces operational risk, and achieves small business participation.
- Timely acquisition of services through non-competitive SDVOSB sole-source contracting that can be leveraged for an immediate contract.
- Cadre of S&S professionals that have tremendous past performance in DOE providing best in class services.
