

# Anticipated Impact of COVID-19 on Transportation-Related Behaviour

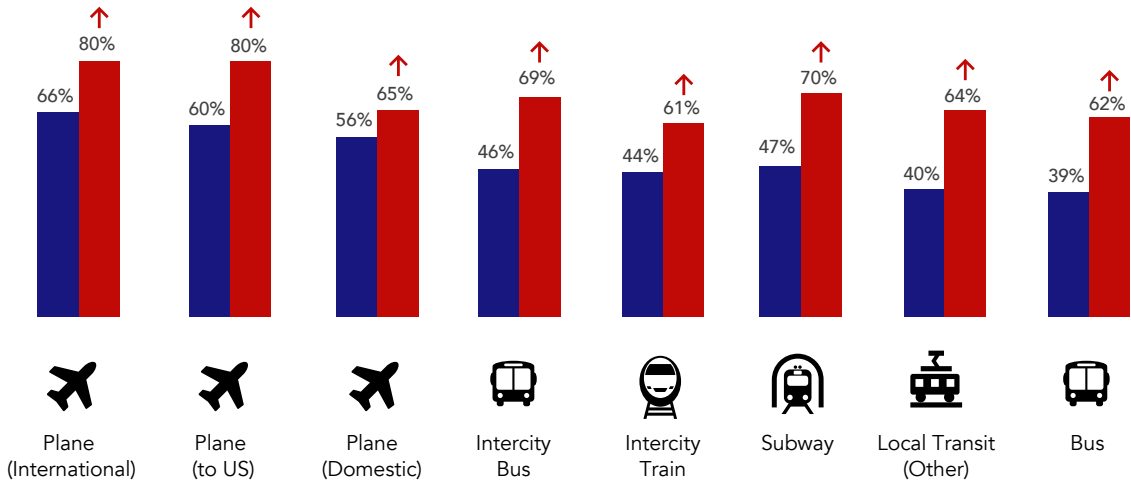

(Wave 1: March 6 - March 8 | Wave 2: May 1 - May 3)

● Wave 1 ● Wave 2

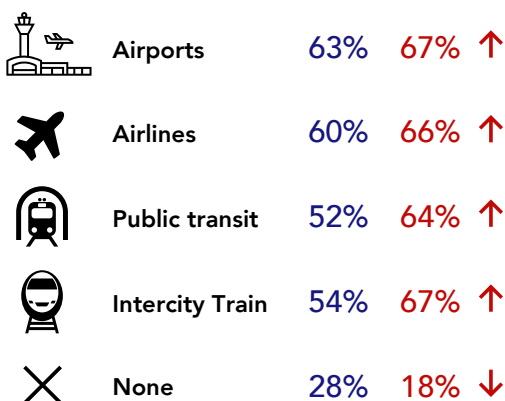

## % ANTICIPATE USING FOLLOWING MODES LESS OFTEN

## % BELIEVE FOLLOWING MODES MORE RISKY

## COMPANIES TAKING RIGHT STEPS TO REDUCE RISK

This study was conducted by Northstar Research Partners, a global strategic research firm. The survey was conducted online from March 6-Marh 8, 2020 and repeated again from May 1 - May 3 using an amalgamated group of best-in-class panels. The study was conducted among a nationally representative sample of n=1000 Canadian residents, aged 18+, per wave.
