ClassLink Simplifies Technology and File Access in Joshua

The Challenge
Teachers were spending too much time at the beginning of every class period just trying to get kids signed on. “I used to carry a ring with these little cards on it with all of my students’ passwords from third grade to sixth grade, and I would flip through my ring to try and find their passwords when they couldn’t remember them. So ClassLink has definitely alleviated that and put more time back in my instructional day,” said Jennifer Soules, a special education teacher at A.G. Elder Elementary.

Choosing ClassLink
Joshua chose ClassLink as their SSO solution because of its accessibility for any user, regardless of age or education level. School administrators saw the value in reducing wasted class time by organizing access to all of their files and apps in one place.

The Outcome
Students sign-in one time and have access to all of their apps and files, saving valuable time in the classroom and allowing access from home. In previous years, teachers weren’t able to use a multitude of programs in one class because of how long it would take to get all of their students logged in; however, students can now access all of their apps and files by logging in one time with ClassLink, allowing teachers to use various programs throughout each class period.

“ClassLink helps me as a teacher have less stress, no other program does that.” - Tonya Bryant, Fourth Grade Teacher.

“ClassLink provides an opportunity for us to use technology in a much easier way. What we have found is that we have so many online resources now, from paperless textbooks to online software that students use, and ClassLink will put everything that every student or staff member needs all in one location.”

PROFILE
Joshua ISD, TX is a public-school district serving 15,000 students. The district encompasses 76 square miles in the Burleson, Crowley, Joshua, Egan and Cleburne communities of Johnson County.

CHALLENGE
The district needed a platform to centralize all of their apps and files; teachers and students were wasting too much classroom time locating apps and logging in to them.

SOLUTION
ClassLink provided Joshua with SSO that allows 24/7 access to all of their apps and files from one easy-to-use platform.
