Initial Evaluation Criteria

Challenge:
As the number of digital resources expanded, Mineral Wells ISD needed a streamlined process for management and access. The district wanted to achieve the following:

1. Create a one stop shop to access web sites and online resources
2. Provide a way for younger students to access apps without entering credentials
3. Access files from one location (Google Drive, One Drive, and school network)
4. Easily assign district-approved resources so users don’t have to hunt or find their own
5. Simplify the rostering process and lessen the burden on the IT team

Solution:
In 2017, Mineral Wells ISD selected ClassLink for providing single sign-on to their apps and Roster Server for delivering class rosters securely, using open data standards.
Teacher Experience

- Easy-to-use
- Simplified access - all digital apps are in one place
- Finding apps in the MWISD App Library is easy
- Students have instant, secure access to resources on day one of instruction
- Saves classroom time previously spent troubleshooting login issues
Student Experience

- Login to MWISD ClassLink once and you’re in
- All digital apps assigned to courses are available
- Can access from anywhere and any device
- Dashboard can be personalized per user.
