

Inclusion in Action

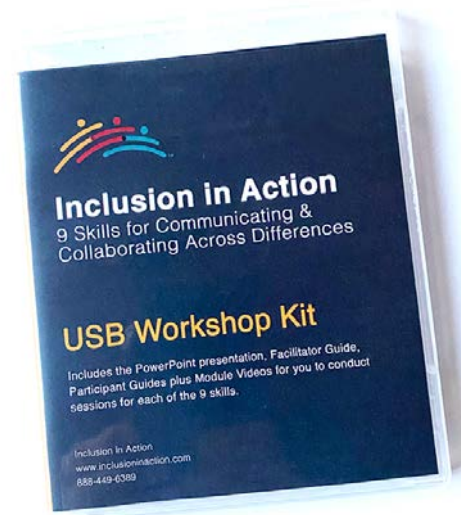

The USB Workshop Kit

The Workshop Kit is for in-person, classroom training for 9 Skills for Communicating & Collaborating Across Differences. All the materials you need are on the USB flash drive. Plug it into your laptop or computer and project for your session.

The Workshop Kit includes:

1. Comprehensive Workshop PowerPoint Presentation with embedded video files and Facilitator Notes to guide you on what to say and do. The videos have English and Spanish subtitles.
2. Facilitator Guide PDF
3. Participant Guide PDF for each of the 9 Modules
4. Access to play the module videos without the PowerPoint Presentation.

These 9 skills are game changers. We can find talented people and bring them in, but if we don't create an environment where we hear every single voice then what good does it do us if we're not going to listen to them? And the only way for us to listen and hear is for us to be inclusive of everyone's style, their thoughts.

Myrna L. Estrada,
SVP, Field Executive, Central Region, Liberty Mutual

The Inclusion in Action training program teaches 9 skills for communicating and collaborating across differences. Not your everyday corporate learning, the video series uses relatable workplace scenarios to teach employees inclusive communication skills that can lead to better work relationships and results. When your employees feel included, engagement, retention and productivity also increase.

Available in the following formats: USB Workshop Kit, Streaming Video and eLearning course.
